

## Casper Fire Sprinkler Inspection/Repair Addendum #2

- Is the Marathon building sprinkled?
  - Yes, partially. The basement is sprinkled but the main level and 2<sup>nd</sup> level are not sprinkled.
- Do you have any information regarding the sprinklers and backflows?
  - Yes, I have created a spreadsheet with all of the information that I have regarding the sprinklers at the needed locations.
- Is City Hall included?
  - Not at this time. City Hall is currently being renovated and will be added to the contract for 2025. Once all work is done, the City and the selected Contractor will walk the building to get a price for inspection.
