Public Services Department Casper Public Utilities

Customer Service Fees (Tap Fees)

Customer Service Fees

- Physical Water Tap Fees
- Physical Sewer Tap Fees
- Water Meter Charges
- Water Service Line Abandonment Inspection Fee
- Building Fire Line and Fire Hydrant Flow Testing Fees

Last Time Updated

- The existing fee schedule was established in 1986 by the Casper Board of Public Utilities (Board)
- The Board was dissolved in 1991
- City Council adopted the existing fee schedule under Resolution 91-81

Reasoning and Methodology

- The existing fee schedule does not recover the cost of the services provided
 - Costs are subsidized by rates
- Staff proposes updating the fees to cover actual cost of services
- The costs in the proposed fee schedule have been calculated based on actual employee and equipment time needed to perform the service

Physical Water Tap Fee

City of Casper Physical Water Tap Fees							
Water Main				Tap Size	2		
Size/Material	3/4"-1"	1-1/2"	2"	4"	6"	8"	12"
4" - 14" PVC Main	\$276	\$312	\$315	\$834	\$846	\$977	\$1,107
16" – 20" PVC Main	\$306	\$371	\$373	\$887	\$899	\$1,031	\$1,160
24" - 30" PVC Main	\$306	\$371	\$373	\$994	\$1,006	\$1,084	\$1,214
4" – 14"CIP/DIP Main	\$322	\$382	\$449	\$940	\$952	\$1,084	\$1,214
16" – 30" CIP/DIP	\$351	\$411	\$478	\$1,047	\$1,059	\$1,190	\$1,320
Main							

Water Physical Tap Fees DO NOT Include: Permits, excavating, trenching, asphalt, service line or hot tap materials (all materials to be supplied by the customer).

Physical Sewer Tap Fee

City of Casper Physical Sewer Tap Fees				
Main Size/Material	Tap Size	Cost		
PVC Sewer Main (all sizes)	4" and 6"	\$292		
8"-12" Clay Tile	4" and 6"	\$351		
15" - 27" Clay Tile	4" and 6"	\$409		

Concrete Sewer Line - All taps into concrete sewer lines will need to be performed by a licensed contractor and core drilled.

Sewer Physical Tap Fees DO NOT Include: Permits, excavating, trenching, asphalt, sewer service line or tapping saddle (all materials to be supplied by the customer).

Tap Scheduling: Tap fees must be paid in full prior to scheduling. A 48 hour notice will be required.

Safety: All traffic control must meet Manual on Uniform Traffic Control Devices (MUTCD) standards. All excavations must meet OSHA 29 CFR 1926 Subpart B – Excavation Standards. Failure to meet these safety practices will result in re-scheduling (48 hour notice) and a fee of \$250.

Water Meter Charges

City of Casper Meter Charges				
Size	Cost			
5/8" X ¾"	\$235			
1"	\$345			
1 ½"	\$610			
2"	\$720			

^{*}Meters larger than 2" to be estimated individually.

Building Fire Line and Fire Hydrant Flow Testing Fees

City of Casper Fire Flow Test Fees				
Fire Flow Type	Cost			
4" to 8" Building Fire Line	\$406			
Single Fire Hydrant Flow Test	\$379			
Double Fire Hydrant Flow Test \$617				

Water Service Line Abandonment Inspection Fee

- Water Service Line Abandonment: City of Casper Water Distribution crews must inspect water service line abandonments. Inspections must be scheduled 48 hours in advance and there will be a \$160.00 fee. All service line abandonments must be performed by a licensed contractor.
- The City no longer performs service line abandonments

Comparison

City of Casper Water Physical Tap Fee Comparison								
	Existing Cost	ting Cost Proposed Cost (Tap Only)				st (Tap + Material)	Amount	of Change

1.5	\$375	\$610	\$235			
2	\$500	\$720	\$220			

Rate of Subsidy

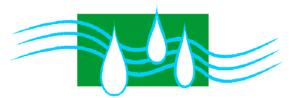

Water Physical Taps					
		Average Proposed Cost (Гар + Material)	Rate of	Subsidy
Tap Size	Existing Cost	Poly	Cooper	Poly	Cooper
0.75"	\$145	\$827	\$1,013	82.5%	85.7%
2"	\$550	\$1,573	\$2,042	65.0%	73.0%

	Sewer Physical Taps				
		Average Proposed Cost (Tap +			
Tap Size	Average Existing Cost	Material)	Rate of Subsidy		
All	\$195	\$404.50	51.8%		

Meter Charges					
Meter Size	Existing Cost	Proposed Cost	Rate of Subsidy		
0.75"	\$145	\$235	38.3%		
1"	\$195	\$345	43.8%		
1.5"	\$375	\$610	38.5%		
2"	\$500	\$720	30.6%		

Concluding

- Casper Public Utility Customer Service Fees (Tap Fees) have not been increased since 1986
- Currently, fees are subsidized by rates
- Staff recommends adopting fees that fully recover the cost of providing the service
- Conceptually approved by the Casper Public Utilities Advisory Board on November 28, 2018
- Staff recommends that the fee schedule be effective January 1, 2018 the same time new water and sewer system investment charges go into effect

CENTRAL WYOMING REGIONAL WATER SYSTEM JOINT POWERS BOARD

MEETING PROCEEDINGS

November 20, 2018

A public meeting of the Central Wyoming Regional Water System Joint Powers Board (Board) was held Tuesday, November 20, 2018 at 11:30 a.m., in the Joint Powers Board Conference Room, Regional Water Treatment Plant, 1500 SW Wyoming Boulevard, Casper, WY.

Board Members Present - Chairman King, Vice-Chairman Keffer, Secretary Powell, Treasurer Lawson, and Board Members Walsh, and Waters. Board Members Humphrey, and Johnson were absent.

City of Casper – Powell, Walsh, Andrew Beamer, Bruce Martin, Michael McDaniels, Clint Conner, Janette Brown

Natrona County - Lawson

Salt Creek Joint Powers Board – King

Wardwell Water & Sewer District – Keffer

Pioneer Water & Sewer District – Waters

Poison Spider Improvement & Service District –

Wyoming Water Development Office -

Sandy Lakes Estates -

Lakeview Improvement & Service District -

33 Mile Road Improvement & Service District –

Mile-Hi Improvement and Service District -

Central Wyoming Groundwater Guardian Team (CWGG) –

Others — Charlie Chapin – Williams, Porter, Day & Neville, P.C.; Jolene King

The Board meeting was called to order at 11:30 a.m.

1. There were no Announcements.

- 2. Chairman King asked for a motion to approve the minutes from the October 16, 2018 meeting. A motion was made by Treasurer Lawson and seconded by Vice-Chairman Keffer to approve the minutes from the October 16, 2018 meeting. Motion put and carried.
- 3. Mr. Martin asked the Board to reference the updated voucher listing dated today and shown on the screen. Mr. Martin stated that two additional vouchers were added to the listing; voucher 7946 for Wyoming Office of State Lands and Investments in the amount of \$8,182.83 for DWSRF#129 Loan Payment; and voucher 7947 for ITC Electrical Technologies in the amount of \$2,209.63 for work on the Ammonia and Corrosion Inhibitor VFDs. Mr. Martin recommended approval of the vouchers and offered to answer any questions the Board may have on the voucher listing.

Chairman King asked for a motion to approve the November 2018 vouchers. A motion was made by Board Member Walsh and seconded by Vice-Chairman Keffer to approve the November 2018 voucher list to include voucher numbers 7932 through 7947 in the amount of \$624,155.25. Motion put and carried.

4. Mr. Martin asked the Board to reference the Gallons Produced table in the agenda packet. Mr. Martin stated that production for October 2018 was 208 MG, which is 19 MG less than the five year average. Mr. Martin stated that year to date production is 1.8 BG.

Mr. Martin stated that Water Revenue for October is \$383,703.

Mr. Martin asked the Board to reference page 2 of the October 2018 Financial Report. Mr. Martin stated that Water Sales are \$3.37 M, which is an increase of \$157,074 due to the rate increase.

Mr. Martin stated that the Total Operating Expenses are \$1,238,435 which is a 10.47% increase over last year. Mr. Martin stated that these expenses include the additional WTP Operator, the increased Interdepartmental Charges, and additional chemical purchases due to the Surface Water Plant being in operation longer this year.

Chairman King asked for a motion to approve the October 2018 Financial Report as presented. A motion was made by Secretary Powell and seconded by Board Member Walsh to approve the October 2018 Financial Report as presented. Motion put and carried.

5. Chairman King turned the time over to Mr. McDaniels for the Operations Update.

Mr. McDaniels stated that production has settled into winter flows of 5 to 6 MGD.

Mr. McDaniels stated that the Bulk Sand Crane Project has a few punch list items, but is otherwise completed. Mr. Martin showed pictures of the new crane system and stated that the crane will lift pallets of sand 15 feet from the floor to the deck.

Mr. McDaniels stated that three well pumps have been replaced, and three raw water

pumps are being replaced. Mr. McDaniels stated that once staff is done with the pump replacements they will begin cleaning and inspecting the clear wells.

Mr. McDaniels stated that the SCADA Improvements Project is scheduled to advertise for bids on November 25th and December 2nd.

The time was turned over to Mr. Conner for the Transmission System Update.

Mr. Conner stated that residuals are down in the system and there has been a lot of flushing taking place; Poison Spider has been doing a lot of flushing. Mr. Conner stated that he hoped residuals will be up in the next month. Vice-Chairman Keffer asked if the outgoing residual is low. Mr. Conner stated that the residual is good leaving the WTP, but the warmer water and reduced usage is contributing to water aging. Secretary Powell asked for a definition of water aging. Mr. Conner stated that in the summer months water usage is high, which creates a turnover of water in the tanks and distribution lines; winter water usage is low and the water temperatures are still warm, which contributes to nitrification, or water aging, in the system.

Mr. Conner stated that there will be a walk-thru on the Airport Elevated Water Storage Tank Project on November 29th and a punch list will be created. Mr. Conner stated that the contractor was very good. Mr. Conner stated that Grizzly Excavating is a subcontractor and is doing the work to decommission the old Airport Tank and mothball it.

Mr. Conner stated that the Metro Booster pump was removed and taken to DXP for recoating and should be completed in a couple of weeks.

Mr. Conner stated that repairs of the anode stations on the Crosstown Pipeline have been completed.

- 6. There was no Public Comment.
- 7. There was no Old Business.
 - a. There was no Other Old Business.
- 8. In New Business:
 - a. Mr. Martin stated that the 2004 Ford Ranger currently in use by the WTP staff has low mileage for its age; however it is in poor condition. Mr. Martin stated that the recommended repairs to the truck would be as much or more costly than the truck is worth.

Mr. Martin stated that the Board was able to "piggy back" off the City of Casper's state bid process. Mr. Martin stated that three bids were opened on October 26, 2018. Mr. Martin stated that Fremont Motors Casper submitted the lowest bid of \$25,304 for a Ram 1500, with a trade-in allowance for the 2004 Ford Range of

\$6,000, for a net cost of \$19,304.

Mr. Martin stated that funding for a new truck was included in the FY2019 budget.

A motion was made by Treasurer Lawson and seconded by Vice-Chairman Keffer to approve the purchase of a Ram 1500 half-ton crew cab pickup from Fremont Motors Casper in the amount of \$25,304 with trade-in allowance of \$6,000 for the 2004 Ranger, for a net cost of \$19,304. Motion put and carried.

- b. Board Member Johnson was not in attendance at the meeting and was unable to sign his annual banking letter.
- c. There was no Other New Business.
- 9. A motion was made by Board Member Walsh and seconded by Vice-Chairman Keffer to adjourn from Regular Session into Executive Session to discuss potential litigation at 11:44 a.m. Motion put and carried.

A motion was made by Secretary Powell and seconded by Board Member Walsh to adjourn from Executive Session back to Regular Session at 11:48 a.m. Motion put and carried.

10. In the Chairman's Report, Chairman King stated that the next regular meeting will be held on December 18, 2018.

A motion was made by Board Member Walsh and seconded by Secretary Powell to adjourn the meeting at 11:49 a.m. Motion put and carried.

9030.00 Utilities - O&M \$87,090.99
9040.00 Supplies - O&M \$3,255.04
9060.00 Training - O&M \$0.00
9070.00 Major Maint, Repair, Replc - O&M \$2,721.96
9080.00 Testing & Lab Services - O&M \$5,351.68
9090.00 Other Reimbursable Costs - O&M \$4,237.25

Deliquent accounts over \$50.00 will be charged an interest penalty of 1.5% per month. Sending payment to cover delinquent invoices (invoice older than 30 days) will prevent further action with the City of Casper collection effort and possible refusal of all city services. Direct all questions about your statement to (307) 235-8400. Please disregard if full payment has been sent.

Make all checks payable to City of Casper and include this remittance stub with the invoices you are paying to ensure proper processing.

Mail Payments To:

MEMO TO:

H. H. King Jr., Chairman

Members, Central Wyoming Regional Water System Joint Powers Board

FROM:

Andrew Beamer, P.E., Public Services Director

Bruce Martin, Public Utilities Manager

SUBJECT:

DWSRF Loan #153 Amended Promissory Note

Meeting Type & Date

Regular Central Wyoming Regional Water System Joint Powers Board (Board) Meeting December 18, 2018

Action Type

Motion

Recommendation

That the Board, by motion, authorize the Chairman to execute an Amended Promissory Note for Wyoming State Loan and Investment Board (SLIB) DWSRF Loan #153, Alternate Backwash Water Supply Project.

Summary

On August 18, 2015, the Board executed a Promissory Note to pay SLIB the amount of Two Million Two Hundred Thousand Dollars (\$2,200,000) together with interest at a rate of 2.5% per annum. The note is for repayment of funds secured from DWSRF Loan #153, used for construction of the Alternate Backwash Water Supply Project.

The substantial completion date for the project was set at July 25, 2018. To date, the Board has made an interest payment of Forty-Seven Thousand Six Hundred Sixty-Eight Dollars (\$47,668.00), and a principal payment of One Thousand Fifty-Four Dollars and Eighty Cents (\$1,054.80). With these payments, the Board has received principal forgiveness in the amount of Five Hundred Fifty Thousand Dollars (\$550,000) in DWSRF loan funds.

The Amended Promissory Note is to establish a new schedule for repayment of the loan principal in the amount of One Million Six Hundred Forty-Eight Thousand Nine Hundred Forty-Five Dollars and Twenty Cents (\$1,648,945.20) plus interest. Annual payments will begin on July 15, 2019.

Financial Considerations

Annual payments in the amount of One Hundred Five Thousand Seven Hundred Seventy-Five Dollars and Ten Cents (\$105,775.10) to begin July 15, 2019.

Oversight/Project Responsibility
Bruce Martin, Public Utilities Manager

<u>Attachments</u> Amended Promissory Note

CHARLIE POWELL, SECRETARY

STATE OF WYOMING WYOMING STATE LOAN & INVESTMENT BOARD CHEYENNE, WYOMING

AMENDED PROMISSORY NOTE

\$1,648,945.20, 2018
On August 18, 2015 the Central Wyoming Regional Water System Joint Powers Board of Casper, Natrona County,
Wyoming, (hereinafter "Borrower") for value received, executed a Promissory Note to pay the State of Wyoming Loan &
Investment Board (hereinafter "Board"), the amount of Two Million Two Hundred Thousand Dollars and No/100
(\$2,200,000.00) together with interest at a rate of two and one-half percent (2.5%) per annum. A copy of said note is
attached hereto as Appendix A and is incorporated herein by reference.
The Borrower has established July 25, 2018 as the substantial completion date for the Borrower's backwash water
supply project. The Borrower has made an interest payment of Forty-Seven Thousand Six Hundred Sixty-Eight Dollars and
No/100 (\$47,668.00) and principal payment of One Thousand Fifty-Four Dollars and 80/100 (\$1,054.80) as of this date. The
Borrower has received principal forgiveness in the amount of Five Hundred Fifty Thousand Dollars and No/100 (\$550,000.00)
in DWSRF loan funds.
The purpose of this Amended Promissory Note is to establish a new schedule for the repayment of the principal in
the amount of One Million Six Hundred Forty-Eight Thousand Nine Hundred Forty-Five Dollars and 20/100 (\$1,648,945.20)
plus interest. In accordance with W.S. 16-1-305(b)(i)(B) repayment of principal and interest must begin not later than one
year after substantial completion of the project, therefore, a payment of principal and interest in the amount of Ninety-Four
Thousand Seven Hundred Six Dollars and 62/100 (\$94,706.62) will be due July 15, 2019. One Hundred Five Thousand
Seven Hundred Seventy-Five Dollars and 10/100 (\$105,775.10) will be due on the 15th day of July thereafter until Eighteen
(18) additional payments have been made and a Twentieth (20th) and final payment of Ninety-Seven Thousand Seventy-One
Dollars and 95/100 (\$97,071.95) being due and payable on July 15, 2038.
The payment schedule is attached hereto and incorporated herein as Appendix B. All other terms and conditions of
the original Promissory Note shall remain in full force and effect.
Dated thisday of, 2018.

DWSRF LOAN #153

DRINKING WATER STATE REVOLVING LOAN NOTE

STATE OF WYOMING WYOMING STATE LOAN & INVESTMENT BOARD CHEYENNE, WYOMING

PROMISSORY NOTE

APPENDIX "A"

\$2,200,000.00

Agust 18th , 2011

For value received the Central Wyoming Regional Water System Joint Powers Board of Casper, Natrona County, Wyoming, (hereinafter "Borrower") promises to pay to the order of the Wyoming State Loan & Investment Board (hereinafter "Board") at Cheyenne, Wyoming, the sum of Two Million, Two Hundred Thousand Dollars and No/100 (\$2,200,000.00) together with interest at a rate of two and one-half percent (2.5%) per annum, in the manner and from the revenue as is more particularly set forth below. Upon completion of the project and prior to repayment of the loan, this loan shall be granted principal forgiveness up to twenty-five percent (25%) of the drawn loan funds, not to exceed Five Hundred Fifty Thousand Dollars and No/100 (\$550,000.00). The Borrower will be required to pay the accrued loan interest in full at the time of the principal forgiveness award.

Quarterly repayment of principal and interest shall begin not later than one (1) year after substantial completion or initiation of operation of the project whichever date occurs first, as set forth and described in the Loan Agreement of even date with this Promissory Note (hereinafter "Note"). Said Loan Agreement being incorporated herein at this point as if fully set forth.

Attached hereto is a preliminary amortization schedule of the principal and interest payments due from the Borrower pursuant to this Note. Pursuant to the Loan Agreement, the Parties understand that the First Payment Due Date will be on or before a date which is one (1) year after substantial completion or initiation of operations of the project whichever date occurs first. Prior to the First Payment Due Date, the amount of principal forgiveness shall be applied to the Promissory Note amount and the Note and the amortization schedule[s] shall be amended to reflect the amount of principal forgiveness. The amount of the first payment due under the Note will include accrued interest on disbursements. In the event the Borrower does not borrow the entire sum of Two Million, Two Hundred Thousand Dollars and No/100 (\$2,200,000.00), the Parties agree to amend the Note and amortization schedule to reflect the principal sum actually borrowed by the Borrower with all of the other terms of Note remaining the same.

All or any portion of the principal due on this Note may be prepaid at any time. The Borrower shall have the right and privilege of making extra payments or pay the entire unpaid balance at any time without penalty. Extra payments shall be credited first to interest due and the balance to principal. Advance or extra payments on account of the principal shall not reduce the annual payments to be made but are to operate only

to discharge the loan at an earlier date.

In the event the annual payment of principal and interest is not received on the specified due date of each year, the Borrower will be in default, and the Board may proceed against the revenues assigned and pledged by the Borrower pursuant to the loan Assignment and Pledge of Revenues as provided by law.

Failure to pay any installment or installments hereon when due shall entitle the holder hereof to declare the whole of the unpaid balance on this Note due and payable on demand.

The maker of this Note hereby accepts the conditions hereon and expressly waives presentment for payment and any claims presented pursuant to W.S. § 15-1-125, protest and notice of protest for nonpayment hereof and all defenses on the grounds of any extension of time of payment that may be given by the holder hereof.

In the event of suit to enforce payment of this Note for any installment, interest, or part thereof, the undersigned maker agrees to pay, in addition to the costs and disbursements provided and allowed by law, reasonable attorney's fees and costs.

CENTRAL WYOMING REGIONAL WATER SYSTEM JOINT POWERS BOARD

BY: 11-14-14' 1

n.n. Kiivo, Jr., Chairiviai

ATTEST:

STEPHEN CATHEY, SECRETARY

MEMO TO: H.H. King, Jr., Chairman

Members, Central Wyoming Regional Water System Joint Powers Board

FROM:

Andrew B. Beamer, Public Services Director

Bruce Martin, Casper CPU Manager Scott R. Baxter, P.E., Associate Engineer

SUBJECT:

Agreement 71 Construction, Inc.

North Platte River Exposed Waterline Stabilization, Project No. 17-097

Recommendation:

That the Central Wyoming Regional Water System (CWRWS) Joint Powers Board authorize an agreement with 71 Construction, Inc., for construction of the North Platte River Exposed Waterline Stabilization, Project No. 17-097, for the base bid amount of \$348,588.71. Furthermore, it is recommended that the Joint Powers Board authorize a construction contingency account, in the amount of \$51,411.29, for a total project amount of \$400,000.

Summary:

On November 27, 2018, the CWRWS received six (6) bids for construction of the North Platte River Exposed Waterline Stabilization Project. The bids for the work were as follows:

<u>CONTRACTOR</u>	BUSINESS LOCATION	BASE BID
71 Construction	Casper, WY	\$348,588.11
Barnum, Inc.	Buffalo, WY	\$351,790.00
Andreen Hunt Construction	Mills, WY	\$398,526.00
Oftedal Construction	Casper, WY	\$471,407.50
Treto Construction	Casper, WY	\$498,075.00
Wayne Coleman Construction	Mills, WY	\$506,307.00

The Engineer's estimate prepared by the City of Casper Engineering Division was \$400,000.

The 24" ductile iron waterline running directly west of the Water Treatment Facility serves large portions of the west side of Casper and surrounding areas. Since 2010, when the North Platte River basin saw high flow rates due to heavy snow pack and precipitation, the western bank of the North Platte River has been eroding where this waterline crosses under the river. Approximately 25 feet of the river bank has been cut back and lost to erosion, and the waterline has been exposed to the river up to about 80 feet in length.

The proposed project includes removal of abandoned natural gas lines that have also been exposed to the river, stabilization and re-sloping of the river bank, replacement of lost material in the river channel to cover the waterline, and re-vegetation of the river bank. The contractor will be required to comply with the requirements of Nation Wide Permits (NWP's) under which clearance has been granted by the US Army Corps of Engineers to proceed with the project.

The Substantial Completion deadline for construction of the project is set for November 1, 2019. Funding for the project will be from Central Wyoming Regional Water System Reserves.

The Agreement is prepared for the Board's consideration.

STANDARD FORM OF AGREEMENT BETWEEN OWNER AND CONTRACTOR

THIS AGREEMENT is made between the Central Wyoming Regional Water System Joint Powers Board, 1500 SW Wyoming Boulevard, Casper, WY 82601, hereinafter referred to as the "Owner," and <u>71 Construction, Inc.</u>, hereinafter referred to as the "Contractor."

WHEREAS, the Owner desires to stabilize a portion of eroded waterline beneath the North Platte River; and,

WHEREAS, <u>71 Construction</u>, <u>Inc.</u>, is able and willing to provide those services specified as the Central Wyoming Regional Water System, North Platte River Exposed Waterline Stabilization, Project No. 17-097.

NOW, THEREFORE, it is hereby agreed as follows:

ARTICLE 1. WORK.

Contractor shall perform all the work required by the Contract Documents for the Central Wyoming Regional Water System, North Platte River Exposed Waterline Stabilization, Project No. 17-097.

ARTICLE 2. ENGINEER.

The Project has been designed by the City of Casper Engineering Office, 200 N. David, Casper, Wyoming, who is hereinafter referred to as the "Engineer" and who is to act as Owner's representative, assume all duties and responsibilities and have the rights and authority assigned to Engineer in the Contract documents in connection with completion of the Work in accordance with the Contract documents.

ARTICLE 3. CONTRACT TIME.

- 3.1 The Work will be substantially completed by <u>November 1, 2019</u>, and completed and ready for final payment in accordance with Article 14 of the General Conditions by <u>November 15, 2019</u>.
- 3.2 Liquidated Damages. Owner and Contractor recognize that time is of the essence of this Agreement and that Owner will suffer financial loss if the Work is not substantially completed by the time specified in Paragraph 3.1 above, plus any extension thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not substantially completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty) Contractor shall pay

Owner One Thousand Dollars (\$1,000.00) for each day that expires after the time specified in Paragraph 3.1 for substantial completion. After Substantial Completion, if the Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in paragraph 3.1 for completion and readiness for final payment or any proper extension thereof granted by Owner, Contractor shall pay Owner Two Hundred Dollars (\$200.00) for each day that expires after the time specified in paragraph 3.1 for completion and readiness for final payment. It is further agreed that such liquidated damages are not a penalty, but represent the parties' best estimate of actual damages.

ARTICLE 4. CONTRACT PRICE.

In Consideration of the performance of the work in accordance with the Contract documents for this Unit Price Contract, Owner shall pay Contractor in current funds a not-to-exceed total contract price of Three Hundred Forty-Eight Thousand Five Hundred Eighty-Eight and 71/100 Dollars (\$348,588.71), subject to additions and deductions by Change Order approved by the Owner. The contract fee shall be based on materials actually furnished and installed and services actually provided based on the unit prices contained in the Bid Form and Itemized Bid Schedule, included as Exhibit "A" (pages BF-1 through BF-4, Bid Form and BS-1, Bid Schedule) and by this reference made a part of this Agreement.

ARTICLE 5. PAYMENT PROCEDURES.

Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed through the Engineer as provided in the General Conditions.

- 5.1 Progress Payments. Contractor's Applications for Payment, as recommended by Engineer, shall be submitted to City Engineering Staff on or before the 25th day of each month during construction, and Owner shall mail progress payments in the following month one day after the second monthly meeting of the Casper City Council. Progress payments shall be structured as provided below. All progress payments will be on the basis of the progress of the Work measured by the Schedule of Values provided for in Paragraph 14.01 of the General Conditions, subject to the cutoff and submittal dates provided in the Measurement and Payment Procedures.
 - 5.1.1 Prior to payment of fifty percent (50%) of Total Contract Price, progress payments will be made in an amount equal to ninety percent (90%) of the Work completed, and ninety percent (90%) of Invoice Cost of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made so the current retainage is equal to ten percent (10%) of the Work complete.
 - 5.1.2 After payment of fifty percent (50%) of Total Contract Price has been made, Owner shall withhold such amounts necessary so the total retainage is equal to five percent (5%) of the Total Contract Price.

- 5.1.3 In the event the Contractor makes only one application for payment upon substantially completing the Work, progress payment will be made in an amount equal to ninety-five percent (95%) of the Work completed. Owner shall withhold five percent (5%) of the work completed as retainage, said retainage to be paid in accordance with the provisions of Paragraph 5.3, Final Payment.
- 5.1.4 Should amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other item or purpose remain unpaid beyond the City's general credit policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this agreement.
- 5.2 OWNER may withhold progress payments if CONTRACTOR fails to submit an updated progress schedule with the application for payment as detailed in Section 01310 Progress Schedules.
- 5.3 Final Payment. Upon final completion and acceptance of the Work in accordance with Article 14 of the General Conditions, Engineer shall recommend payment and present Contractor's Final Application for Payment to the City. Pursuant to Wyoming State Statutes, final payment cannot be made until forty-one (41) days after publication of the first Notice of Completion.

ARTICLE 6. WITHHELD FUNDS.

Pursuant to Wyoming Statutes Section 16-6-701 et seq., withheld percentages for Contracts exceeding twenty-five thousand dollars (\$25,000.00) will be retained in an account in the name of the Contractor (except when specifically waived in writing by Contractor) which has been assigned to the Owner until the Contract is completely, satisfactorily, and finally accepted by the Owner. Unless a depository is designated by the Contractor in a written attachment hereto, the Contractor's signature hereon shall act as authority for the Owner to designate a retainage depository on behalf of the Contractor, for the purposes specified in Wyoming Statutes Section 16-6-704. The Contractor's signature hereon shall act as an assignment of the depository account to the Owner, as provided by Wyoming Statutes Section 16-6-701 et seq., whether the depository is designated by the Contractor or by the Owner.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

7.1 Contractor has familiarized himself with the nature and extent of the Contract documents, Work, locality, and with all local conditions and federal, state, and local Laws and Regulations that in any manner may affect cost, progress, or performance of the Work.

- 7.2 Contractor has studied carefully all reports of investigations and test of subsurface and latent physical conditions at the site or otherwise affecting cost, progress, or performance of the Work which were relied upon by Engineer in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.
- 7.3 Contractor has made or caused to be made examinations, investigations, and test and studies as he deems necessary for the performance of the Work at the Contract price, within the Contract Time, and in accordance with the other terms and conditions of the Contract documents; and no additional examinations, investigations, tests, reports, or similar data are or will be required by Contractor for such purposes.
- 7.4 Contractor has correlated the results of all such observations, examinations, investigations, tests, reports, and data with the terms and conditions of the Contract documents.
- 7.5 Contractor has given Engineer written notice of all conflicts, errors, or discrepancies that he has discovered in the Contract documents and the written resolution thereof by Engineer is acceptable to Contractor.

ARTICLE 8. CONTRACT DOCUMENTS.

The Contract documents which comprise the entire agreement between Owner and Contractor are attached to this Agreement, made a part hereof and consist of the following:

- 8.1 This Agreement (Pages SFA-1 to SFA-6, inclusive).
- 8.2 Standard Joint Account Agreement or Letter of Forfeiture waiving same.
- 8.3 Exhibit "A" Standard Bid Form (Pages BF-1 to BF-4, inclusive) and Bid Schedule (BS-1).
- 8.4 Addenda No. <u>1</u>.
- 8.5 Standard Performance and Labor and Material Payment Bonds.
- 8.6 Certificates of Insurance, of Workers' Compensation Coverage, and of Unemployment Insurance Coverage.
- 8.7 Standard General Conditions (Pages 00700-1 to 00700-42, inclusive).
- 8.8 Standard Supplementary Conditions (Pages SSC-1 to SSC-16, inclusive).
- 8.9 General Requirements, consisting of seven (7) sections.

- 8.10 Special Provisions (Section 01810, and SS-1 to SS-10, inclusive).
- 8.11 Notice of Award.
- 8.12 Notice to Proceed.
- 8.13 Minutes of the Pre-Bid Conference, if any.
- 8.14 Shop Drawings and other Submittals furnished by Contractor during performance of the Work and accepted by the Owner.
- 8.15 Any modifications, amendments, and supplements, including Change Orders, issued pursuant to Paragraphs 3.4 and 3.5 of the General Conditions, on or after the effective date of this Agreement.
- 8.16 Certificate of Substantial Completion.
- 8.17 Drawings: North Platte River Exposed Waterline Stabilization Sheets 1-5

ARTICLE 9. GOVERNMENTAL CLAIMS ACT

The Owner does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq. The Owner specifically reserves the right to assert any and all immunities, rights, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

ARTICLE 10. MISCELLANEOUS PROVISIONS.

Terms used in this Agreement, which are defined in the General Conditions, shall have the meanings designated in those conditions.

ARTICLE 11. WYOMING PREFERENCE ACT.

The labor to be performed by the Contractor under this agreement may require the Contractor to comply with the Wyoming Preference Act of 1971, as amended, W. S. § 16 - 6 - 201 et seq. It is the legal responsibility of the Contractor to determine whether the identified Act is applicable to the Contractor while performing the services/labor detailed herein. Whether the Contractor determines that the identified Act is applicable, the Contractor shall be legally obligated to comply with the identified Act in all regards while providing labor upon the project herein described. All questions relating to compliance of the Contractor under the Act should be addressed by the Contractor to:

State of Wyoming Department of Workforce Services
Casper Workforce Center
851 Werner Court, Suite 120
Casper, WY 82601

Phone #: 307 - 234 - 4591 Fax #: 307 - 266 - 1238

www.Wyomingworkforce.org

Through execution of this contract, the Contractor certifies that if the identified Act is applicable to this project, Contractor has met, and will continue to meet all obligations incumbent upon it as set forth under the identified Act throughout the term of the project identified herein.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed in one (1) original copy on the day and year first above written.

MEMO TO:

H.H. King, Jr., Board Chairman

FROM:

Andrew Beamer, P.E., Public Services Director

Bruce Martin, Public Utilities Manager Scott R. Baxter, P.E., Associate Engineer

SUBJECT:

Authorizing Change Order No. 3 with Landmark Structures I, L.P., for a price reduction of \$79,565.00 for Final Quantity Variations for the Airport

Elevated Water Storage Tank, Project No. 14-48.

Meeting Type & Date

Regular Board Meeting December 18, 2018

Action type

Authorization

Recommendation

That the Central Wyoming Regional Water System Joint Powers Board authorize Change Order No. 3 with Landmark Structures I, L.P., for a price reduction of \$79,565.00 for Final Quantity Variations for the Airport Elevated Water Storage Tank, Project No. 14-48.

Summary

Landmark Structures I, L.P., is under contract to construct the new Airport Elevated Water Storage Tank. The 1 million gallon water tank provides the necessary added pressure to comply with regulatory requirements.

The project is complete and various bid items had quantities that were underused or overused, with a net deduction of \$79,565.00.

609 Consulting, LLC, the engineering consultant retained by the JPB to manage the construction, has reviewed the final quantities with the contractor and City Engineering staff and has recommended approval.

Financial Considerations

Funding for the project is from Wyoming Water Development Funds in the form of a grant for 67% with the remaining portion from Regional Water System Reserves at 33%. Two previous change orders were approved for \$11,135.85. The WWDC representative, Bill Brewer, has given approval for this change order. Change Order No. 3 will inflate the remaining contingency amount from \$140,864.15 to \$220,429.15.

Oversight/Project Responsibility
Scott R. Baxter, P.E., Associate Engineer, Public Services Department.

Change Order No. 3 Form 609 Consulting, LLC Recommendation Letter

TRANSMITTAL

To: Scott Baxter, PE, City of Casper Engineering Dept.

From: Clyde H. Dolan

Subject: Airport Elevated Water Storage Tank Project, Change Order No. 3

Date: November 29, 2018

Copies: Files

Scott, please find attached the original of Change Order No. 3 which has been signed by us and Landmark.

Please submit this change order to the Joint Powers Board for their review and approval. We recommend that this Change Order No. 3 be approved by the Board.

Once it has been approved by the Board and signed, please keep the original for the Board's files, and sent us a copy for our files. We will provide Landmark with a fully signed copy.

Sincerely,

609 Consulting, LLC

Clyde H. Dolan, PE

Bid Schedule Quantity Revisions

Bid Schedule B

- Bid Item B-3: Utility Locate: Decrease the Bid Quantity from 5 EA to 1 EA.
- Bid Item B-16: Chain Link Fencing and Gates: Decrease the Bid Quantity from 330 LF to 288 LF.
- Bid Item B-18: Decommission Airport Standpipe: Decrease the Bid Quantity from 1 LS to 0.8 LS.

Bid Schedule C

- Bid Item C-1: Utility Locate: Decrease the Bid Quantity from 5 EA to 4 EA.
- Bid Item C-3: 16-inch Inlet/Outlet Piping: Increase the Bid Quantity from 1,720 LF to 1,741 LF.
- Bid Item C-4: 16-inch Overflow/Drain Piping: Decrease the Bid Quantity from 1,560 LF to 1,514 LF.
- Bid Item C-6: 16-inch Gate Valve w/ Valve Box: Decrease the Bid Quantity from 4 EA to 3 EA.
- Bid Item C-7: 12-inch Inlet/Outlet Piping: Decrease the Bid Quantity from 50 LF to 38 LF.
- Bid Item C-15: Concrete Canal Replacement: Increase the Bid Quantity from 30 LF to 49 LF.
- Bid Item C-16: Select Backfill Material: Decrease the Bid Quantity from 100 CY to 0 CY.
- Bid Item C-17: Foundation Material: Decrease the Bid Quantity from 100 CY to 0 CY.
- Bid Item C-19: 12-Foot Wide Double Chain Link Gate in Existing Fence: Decrease the Bid Quantity from 1 EA to 0 EA.

- Bid Item C-20: Gravel Tank Site and 12-Foot Road: Increase the Bid Quantity from 2,500 SY to 2,720 SY.
- Bid Item C-21: Seeding and Mulching: Decrease the Bid Quantity from 4.5 Acres to 2.1 Acres.
- Bid Item C-22: Valve Marker Posts: Decrease the Bid Item from 7 EA to 4 EA.
- Bid Item C-23: Rip Rap: Decrease the Bid Quantity from 160 SY to 124 SY.

Bid Schedule D

Bid Item D-3: Re-Pave Existing Roadway/Parking Lot: Reduce the Bid Quantity from 1,650 SY to 85 SY.

MINUTES

Community Action Partnership of Natrona County Board Meeting November 28, 2018

Vice Chair (Interim Chair) Erin O'Brien called the board meeting to order at 4:45 pm on November 28, 2018, in the CAPNC Conference Room.

MEMBERS PRESENT:

Kristy Oster

Micki Jaramillo Lonna Jones Erin O'Brien

Wyoma Groenenberg

Laura Kaehn

Ryan Klinger (by telephone)

OTHERS PRESENT:

Marilyn Dymond Wagner, Interim Executive Director

Janice Laird, CAP Senior Financial Coordinator Theresa Bush, 12th Street Clinic Operations Director

Jonathan Schmidt, RSVP Program Manager

Regina Dodson, Community Services Program Manager,

Wyo. Dept. of Health

RSVP PRESENTATION

Jonathan Schmidt, RSVP program manager, told the board about the Retired and Senior Volunteer Program, of which he took the helm in January 2018. Funded through grants and other funding from CAP, Natrona County's RSVP has 152 volunteers operating from 32 stations. Schmidt said there is a goal to be up to 175 Members and 40 stations at the end of the grant cycle. RSVP will soon expand into Converse County. Volunteers must fill out an application and obtain orientation to become part of RSVP, he said.

MINUTES:

The minutes of the October 31, 2018, board meeting were presented. Lonna Jones made a motion to approve the minutes with a change; Micki Jaramillo seconded. The motion was unanimously carried.

BUSINESS:

 After a strategic planning session preceding this board member, the board asked for a board calendar and learned they must track their volunteer hours. To stay onboard with CSBG standards, Regina Dodson noted that the board orientation manual must be updated (Wyoma Groenenberg offered to help) and the bylaws reviewed annually.

FISCAL REPORT:

No discrepancies were found in the financial report. Lonna Jones made a motion to approve the October 2018 Fiscal Report. It was seconded by Kristy Oster. Motion was unanimously carried.

COMMITTEE REPORTS:

Finance Committee - Noted above.

Personnel and Governance – Ivonne Chavez, TANF representative and client advocate at CAP, accepted a position with Seton House. Brittany Fleming, will start her first job as a social worker at CAP on December 17.

Program Planning and Development Committee – Members scheduled a luncheon with Brad Hopkins with the Central Wyoming Rescue Mission to brainstorm new ideas for a fundraiser.

12th STREET CLINIC:

Theresa Bush, Operations Manager, told the board that HCH's number of unduplicated patients was 699 at the end of October, which is 158 more than in 2017. That included 39 at the clinic plus 82 patients were seen at the Rescue Mission.

Thirteen clients visited during open access counseling the second week in October when they learned coping skills to help deal with issues in their lives.

Jennifer Helmer, Medical Director, will be gone from the clinic Dec. 10-27. Someone from Wyoming Family Practice will be at the clinic on Wednesdays, and the walk-in mental health program will be available.

EXECUTIVE DIRECTOR'S REPORT:

Marilyn Dymond Wagner, Interim Executive Director, reviewed the following items:

- From Nov. 1-22, 144 individuals and families received 108 services provided with CSBG funds. Thirty-five families were able to remain in stable housing; most clients served were ages 19-54 with 13 senior citizens served. Clients included one veteran and 33 disabled people.
- Krystal Wallace and two helpers continue to do outreach, including assisting a homeless male veteran get an apartment at Life Steps with a deposit and first month's rent. Additionally, he is now employed.
- TANF funding helped 26 clients go through orientation in the last quarter, of which 18 enrolled in the Empowerment Opportunity for Success program resulting in 15 of them becoming employed.
- Housing First has 18 clients with some struggling with suicidal ideations. They are constantly being checked on for their wellness.
- SOAR recently helped four clients sign up for SSI and SSD payments.
- CAP has \$40,000 from the County to disburse to non-profits. The 2017 Needs Assessment reflects eight key indicators or needs faced by individuals/families within Natrona County. These indicators will be used to determine which non-profits will be invited to apply for monies. CAP is currently addressing six of the eight key indicators.

A motion to adjourn the meeting was made by Wyoma Groenenberg; seconded by Lonna Jones. The meeting was adjourned.

Respectfully submitted,

Wyoma Groenenberg, Secretary-Treasurer

Carter,

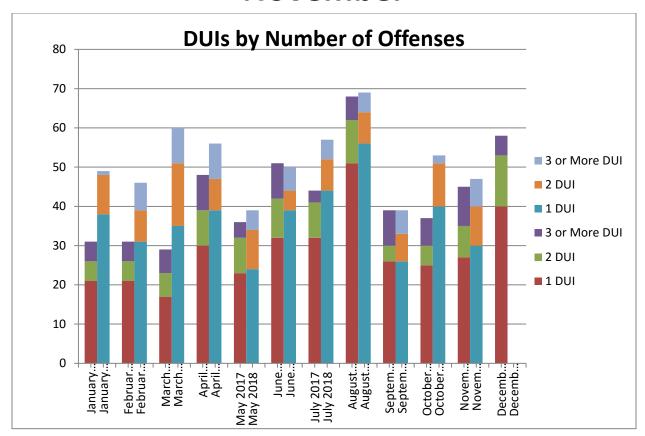

Here is our most recent data for 2017 and 2018 YTD for the age of DUI offenders. As you can imagine, the two age groups comprising offenders in the 20s and 30s constitute the lion's share of DUI arrests.

Let me know if more information is requested from Council.

Respectfully,

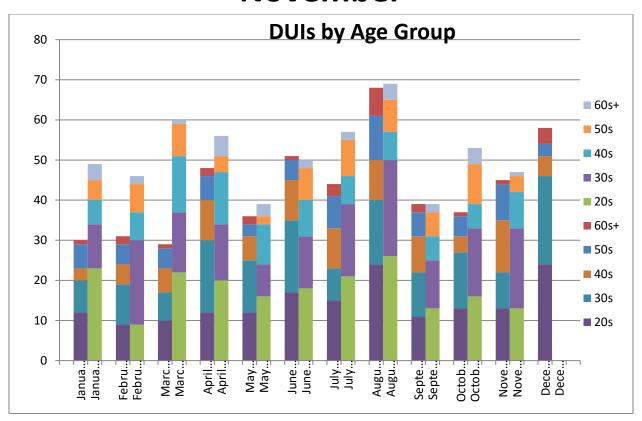

Keith

Many gambling machines in Casper declared illegal

Casper police chief to hold question and answer opportunity for citizens

Casper, Wyoming (December 14, 2018) – On December 11, 2018, Wyoming Attorney General Peter Michael issued a formal opinion to Natrona County District Attorney Michael Blonigen regarding the lawfulness of electronic gambling devices which have become prevalent throughout the State of Wyoming, including Casper.

According to the opinion from Attorney General Michael, these Skill Games are "illegal gambling devices, playing them constitutes gambling, and those aiding or inducing others to play these games engage in professional gambling."

Title 6, Chapter 7, Section 102, of the State of Wyoming's Statutes dictates that persons committing gambling are committing a misdemeanor and may be subject to criminal penalties punishable by not more than 6 months imprisonment, a fine of not more than \$750, or both. Professional gambling constitutes a felony punishable by imprisonment of not more than 3 years, a fine of not more than \$3,000, or both.

"In particular, the Attorney General's opinion identified Wyoming Skill Game 1 and Wyoming Skill Game 2, manufactured by Banilla Games, Inc. as electronic gaming devices which are illegal," stated Casper Chief of Police Keith McPheeters. These games are currently operating in Wyoming with the following names: Bathtime Bucks; Fruity Sevens; Searing Sevens; Snake Eyes; Wheel Deal; Spooky's Loot; Mega Monkey Reel; Lucky Striker; Major Cash; and Pedro's Hot Tamales.

Pari-mutuel Off-Track betting devices remain an approved, legal, gaming device. "Authorized, legal electronic gambling devices will have a registration sticker from the State of Wyoming, generally located on the right side of the device," explained McPheeters. "In addition to the electronic gaming devices identified by name in the attorney general's opinion, other non-Pari-Mutuel Off-Track betting electronic gambling devices may also fall into the category of illegal gaming devices."

Casper Police Chief Keith McPheeters was informed of this important opinion on Tuesday. "Because the public and local businesses have not had time to become aware of the Attorney General's opinion, or to understand its application and impact, I will hold an informal, open-forum meeting on Wednesday, December 19, from 6 p.m. to 7 p.m., at the Casper City Hall's Council Chambers to provide information and answer questions regarding the Department's response to the electronic gambling device opinion," said McPheeters. "The meeting is open to citizens and businesses alike."

Subject: RJ Volunteer Training(s) set for January, 2019!

Natrona County Restorative Justice – Volunteer Training January 2019!

Individuals may volunteer in NCRJ's restorative process in two different capacities – as a Community Member or a Conference Facilitator.

Volunteer Community Member Training

Thursday, January 10th

6pm to 8pm

Host site: Highland Park Community Church

No cost

Please RSVP by January 9th to 307.233.6603 or reply to this email.

This training is designed for those who would like to be the voice of an impacted community in a restorative process. Those interested in learning more about restorative justice are encouraged to attend; by attending this training there is no obligation to become a volunteer.

Community Conferencing Facilitator Training*

Thursday & Friday, January 17th & 18th

830am to 430pm, each day

Host site: Highland Park Community Church

\$75 registration fee, lunch provided

Limited to 18 participants, register by January 11th

For questions or to register please call 307.233.6603 or reply to this email.

*Attending the Community Member Volunteer Training on January 10th is a perquisite.

This training is designed for those who would like to be a partner in the facilitation of the conference process. Please note, there are two facilitators in every restorative process (meeting). Once training is complete, all new volunteers will take the co-facilitator role and will not be asked to take the lead role until at which time they feel ready!

To learn more about restorative justice and NCRJ's program, please visit our website and/or Facebook page.

http://natronacountyrj.wixsite.com/ncrj

https://www.facebook.com/Natrona-County-Restorative-Justice-166544960438081/

Please forward and share this training announcement!

(I apologize for any cross postings!)

Jen Miner, Program Coordinator Youth & Adult Community Service Program Natrona County Restorative Justice Casper Police Department 201 N David St. Casper, WY 82601 307.233.6603

Calling all community members interested in a RESTORATIVE FUTURE for our community! Please join us for...

NATRONA COUNTY RESTORATIVE JUSTICE CPD's Restorative Justice Program Volunteer Training January, 2019

Host Site: Highland Park Community Church, Casper, WY

Community Member Volunteer

Training
Thursday, January 10th
6pm to 8pm
RSVP by January 9th
No fee, light refreshments

The Community Member Volunteer training is designed for those who would like to be a Community Member Volunteer, or simply to learn more about RJ. There is no obligation to become an NCRJ volunteer by attending.

Community Conferencing Facilitator Training

Thursday & Friday, January 17th & 18th, 8:30am to 4:30pm

Register and submit payment by January 11th

Cost: \$75, limited to 18 participants, lunch provided

Community Member Training is a prerequisite to Facilitator Training

For registration, payment and questions contact:

Jen Miner at 307.233.6603 or jminer@casperwy.gov

Grants to Revitalize Infrastructure Nationwide

White House Office of Intergovernmental Affairs

Local Elected Officials and Leaders,

Today, U.S. Transportation Secretary Elaine L. Chao today announced \$1.5 billion in discretionary grant funding to 91 projects in 49 states and the District of Columbia. Many of these projects directly impact your respective communities. The grants are made through the Better Utilizing Investments to Leverage Development (BUILD) Transportation Grants program and support road, rail, transit, and port infrastructure projects across the country. You can find more information, including a complete list of grant award recipients, here (U.S. Transportation Secretary Elaine L. Chao Announces \$1.5 Billion in BUILD Transportation Grants to Revitalize Infrastructure Nationwide).

As always, we welcome your input and feedback. The White House Office of the Intergovernmental Affairs is the primary liaison between the administration and the country's state and local elected officials.

Background on BUILD Grants

The Better Utilizing Investments to Leverage Development, or BUILD Transportation Discretionary Grant program, provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. Previously known as Transportation Investment Generating Economic Recovery, or TIGER Discretionary Grants, Congress has dedicated nearly \$5.6 billion for nine rounds of National Infrastructure Investments to fund projects that have a significant local or regional impact.

Since 2009, the Program has provided a combined \$5.6 billion to 463 projects in all 50 states, the District of Columbia, Puerto Rico, Guam, the Virgin Islands: \$1.5 billion for TIGER I, \$600 million for TIGER II, \$527 million for TIGER III, \$500 million for TIGER IV, \$474 million for TIGER V, \$600 million for TIGER VI, \$500 million for TIGER VIII, \$500 million for TIGER IX, and \$1.5 billion for BUILD FY 2018.

More information on the BUILD Grants can be found here.

Sincerely,

The White House Office of Intergovernmental Affairs

Subject: EPA and Army Propose New "Waters of the United States" Definition

White House Office of Intergovernmental Affairs

Local Elected Officials and Leaders.

Today, the U.S. Environmental Protection Agency (EPA) and the Department of the Army (Army) proposed a clear, understandable, and implementable definition of "waters of the United States" that clarifies federal authority under the Clean Water Act. Unlike the Obama administration's 2015 definition of "waters of the United States," today's proposal contains a straightforward definition that would result in significant cost savings, protect the nation's navigable waters, help sustain economic growth, and reduce barriers to business development. You can read more from EPA's press release here (EPA and Army Propose New "Waters of the United States" Definition).

We would also like to highlight a recent op-ed from EPA Acting Administrator Andrew Wheeler: "Trump Administration's Waters of the United States Rule Gives Power Back to State"

For Immediate Release December 12, 2018

Wyoming Association of Municipalities Region 1 Communities Elect New Director and Nominate New Committee Representative

CHEYENNE – Representatives from communities across Wyoming Association of Municipalities (WAM) Region 1 came together Wednesday, December 12th, 2018 at 5 p.m. via teleconference to fill two leadership vacancies that will be created when Laramie Mayor Andi Summerville leaves office in January.

Councilman Mark Rinne from Cheyenne will join the WAM Board of Directors in January, filling the Region 1 "First Class City" seat on the board. Rinne was the only nominee for the position and was elected by unanimous vote.

Kelly Krakow, Mayor of the Town of Albin and current WAM Region 1 Director, was chosen as the nominee for Region 1 to the WAM Legislative Leadership Committee (LLC). He was also considered unopposed and was chosen by unanimous vote. His nomination will now go to the WAM Board of Directors for confirmation before he can become Region 1's Committeeman on the LLC. WAM thanks Mayor Summerville for her years of service to the association, as well as to the people of Laramie, and wishes her the best in her future endeavors.

Subject: RE: Wireless Communication Facilities Regulations--Draft Template

The FCC denied a stay request on wireless communications, and the FCC's Order is going into effect on January 14th unless a court stays its implementation.

Subject: Wireless Communication Facilities Regulations--Draft Template

Attached are model ordinances that are the same with one being for a city and one for a town for your use, and that can be modified for your specific needs. WAM encourages you to tailor the draft template as needed for your particular situation and city/town codes.

As you know, wireless communications including small cell infrastructure has been a topic of discussion at the federal, state and local level for the past several years. WAM created these draft templates believing these will assist your municipality saving time and expenses. WAM used a consultant who has vast experience in telecommunications and has presented workshops at WAMs recent Winter Conference and Summer Convention. In addition, WAM had Mark Harris, WAM legal counsel, as part of its team to ensure Wyoming law compliance.

As you also know, I have shared many communiques regarding FCC actions and orders regarding small cell infrastructure. I ask you to share these draft templates with your mayors, council members, legal counsels, planners, engineers, and those you believe who can also benefit from these templates.

I trust these documents will be of benefit.

Rick Kaysen, Executive Director

[&]quot;Communities that don't matter, don't exist."

AN ORDINANCE OF THE CITY OF ADOPTING A NEW CHAPTER ENTITLED "WIRELESS COMMUNICATION FACILITIES REGULATIONS" AND PROVIDING FOR AN EFFECTIVE DATE.
WHEREAS, the City of ("City") desires to encourage wireless infrastructure investment by providing a fair and predictable process for the deployment of small wireless facilities, while enabling the City to promote the management of public streets, highways, rights-of-way and public places in the overall interests of the public health, safety and welfare; and
WHEREAS, federal laws and regulations that govern local zoning standards and procedures for wireless communication facilities have substantially changed; and
WHEREAS, the City of desires to update its local standards and procedures to reasonably regulate wireless communication facilities aesthetics, to protect and promote the City's unique character in a manner consistent with state and federal laws and regulations; and
WHEREAS, the City recognizes that small wireless facilities are critical to delivering wireless access to advanced technology, broadband and 9-1-1 services to homes, businesses and schools within the City; and
WHEREAS, the City recognizes that small wireless facilities, including facilities commonly referred to as small cells and distributed antenna systems, often may be deployed most effectively in the public streets, highways, rights-of-way and public places; and
WHEREAS, the City intends to fully comply with state and federal law; and
WHEREAS, federal laws and regulations, wireless technology and consumer usage have reshaped the environment within which wireless communication facilities are permitted and regulated; and
WHEREAS, following appropriate procedures and public notice, on, the Planning Commission or other reviewing entity conducted a hearing on proposed amendments to the City Code, and recommended that the governing body approve the proposed amendments; and
WHEREAS, on, the governing body conducted a lawfully-noticed public hearing and received the recommendations of the Planning Commission or other reviewing entity regarding the proposed amendments.
NOW, THEREFORE, BE IT ORDAINED by the governing body of the City of that the City Code of the City of shall be amended as follows:
Section 1.1 Amendment. That the City Code is hereby amended by adding the following Chapter entitled "Wireless Communication Facilities Regulations".
Section 1.2 Definitions
a. "Administrative review" means review of an application by the City relating to the issuance of a permit to determine whether the issuance of a permit is in conformity with the applicable provisions of this Chapter.

- b. **"Antenna"** means communications equipment that transmits and/or receives radio frequency signals used in the provision of wireless services. This definition does not apply to broadcast antennas, antennas designed for amateur radio use or satellite dishes for residential or household purposes.
- c. **"Antenna array"** means a single or group of antenna elements and associated mounting hardware, transmission lines, remote radio units, or other appurtenances which share a common attachment device such as a mounting frame for the sole purpose of transmitting or receiving wireless communication signals.
- d. "Applicable codes" means uniform building, fire, safety, electrical, plumbing or mechanical codes adopted by a recognized national code organization to the extent such codes have been adopted by the City, including any amendments.
- e. "Applicant" means any person who submits an application under this Chapter.
- f. "Application" means a written request, on a form provided by the City, for a permit.
- g. "City" means the City of _____, Wyoming.
- h. "Collocation" means the mounting or installation of equipment on an existing tower, building or structure for the purpose of transmitting or receiving radio frequency signals for communications purposes.
- i. "Decorative pole" means a pole that is specially designed and placed for aesthetic purposes.
- j. "Distributed Antenna System" means a network consisting of transceiver equipment at a central hub site to support multiple antenna locations throughout the desired coverage area.
- k. "Eligible Facilities Request" shall be as defined in federal regulations.
- I. "FAA" means the Federal Aviation Administration.
- m. "FCC" means the Federal Communications Commission.
- n. "Governing body" means the group of elected officials which is able to make decisions on behalf of the City (for example, the City Council).
- o. **"Laws"** means, collectively, any and all Federal, State, or local law, statute, common law, code, rule, regulation, order, or ordinance.
- p. "Macrocell" means an antenna or antennas mounted on a tower, ground-based mast, rooftops or structures, at a height that provides coverage to the surrounding area.
- q. "Ordinary maintenance and repair" means inspections, testing or repair that maintain functional capacity, aesthetic and structural integrity of a wireless communication facility and the associated structure, pole or tower, and that does not involve impeding, damaging or disturbing any portion of the Public ROW.

- r. "Permit" means a written authorization (in electronic or hard copy format) to install, at a specified location in the Public ROW, a wireless communication facility.
- s. "Permittee" means an applicant that has received a permit under this Chapter.
- t. **"Person"** means an individual, corporation, limited liability company, partnership, association, trust or other entity or organization.
- u. "Pole" means a legally constructed pole, such as a utility, lighting or similar pole made of wood, concrete, metal or other material, located or to be located within the Public Right of Way.
- v. "**Provider**" means a wireless services provider or wireless infrastructure provider and includes any person that owns or operates wireless communication facilities within the Public ROW.
- w. "Public Right-of-Way" or "Public ROW" means the area on, below, or above property that has been designated for use as or is used for a public roadway, highway, street, sidewalk, alley or similar purpose, and for purposes of this Chapter shall include public utility easements, but only to the extent the City has the authority to permit use of the public utility easement for wireless communication facilities.
- x. "Public utility easement" means, unless otherwise specified or restricted by the terms of the easement, the area on, below, or above a property in which the property owner has dedicated an easement for use by utilities. Public utility easement does not include an easement dedicated solely for City use, or where the proposed use by the provider is inconsistent with the terms of any easement granted to the City.
- y. **"Replace" or "Replacement"** means, in connection with wireless communication facilities and a corresponding pole, structure or tower, to replace (or the replacement of) the same with something that is substantially similar in design, size, color and scale to the existing facilities or structure and in conformance with this Chapter and any other applicable City regulations.
- "Small wireless facilities" encompass facilities that meet the following conditions: (1) Z. the facilities -- (i) are mounted on structures fifty (50) feet or less in height including their antennas, or (ii) are mounted on structures no more than ten percent (10%) taller than other adjacent structures, or (iii) do not extend existing structures on which they are located to a height of more than fifty (50) feet or by more than ten percent (10%), whichever is greater; (2) each antenna associated with the deployment, excluding associated antenna equipment, is no more than three (3) cubic feet in volume; (3) all other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is no more than twenty eight (28) cubic feet in volume; (4) the facilities do not require antenna structure registration under federal law; (5) the facilities are not located on Tribal land as defined under federal law; and (6) the facilities do not result in human exposure to radiofrequency radiation in excess of the applicable safety standards specified under federal law.. The following types of associated ancillary equipment are not included in the calculation of equipment volume: electric meter, concealment elements. telecommunications demarcation box, grounding equipment, power transfer switch, cutoff switch, and vertical cable runs for the connection of power and other services.

- aa. "State" means the State of Wyoming.
- bb. "Stealth" means a design that minimizes the visual impact of wireless communication facilities by camouflaging, disguising, screening or blending them into the surrounding environment. Examples of stealth design include but are not limited to facilities disguised as trees (monopines), flagpoles, utility and light poles, bell towers, clock towers, ball field lights and architecturally screened roof-mounted antennas or flush-mounted antennas that are either painted to match or enclosed in an architecturally, applicable box.
- cc. "Substantial change" is as defined in federal regulations.
- dd. "**Tower**" means any structure in the Public ROW built for the sole or primary purpose of supporting a wireless communication facility.
- ee. "Tower height" means the vertical distance measured from the base of the tower structure at grade to the highest point of the structure including the antenna. A lightning rod, not to exceed ten (10) feet in height, shall not be included within tower height.
- ff. "Transmission equipment" means equipment that facilitates transmission for any FCC-licensed or authorized wireless communication service, including, but not limited to, radio transceivers, antennas, microwave dishes, coaxial or fiber-optic cable and backup power supplies. The term includes equipment associated with wireless communication services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.
- gg. "Wireless Communication Facility" or "Wireless Communication Facilities" means, collectively, the equipment at a fixed location or locations within the Public ROW that enables wireless communication services, including for example: radio transceivers, support structures, poles, antennas, coaxial, fiber-optic or other cabling, power supplies (including battery backup), and comparable equipment, regardless of technological configuration and small wireless facilities and distributed antenna systems.
- hh. **"Wireless infrastructure provider"** means a person, other than a wireless services provider, that builds or installs towers, wireless transmission equipment, wireless facilities poles or wireless support structures.
- ii. **"Wireless services"** means any wireless services using licensed or unlicensed spectrum, whether at a fixed location or mobile, provided to the public.
- ij. "Wireless services provider" means a person who provides wireless services.

Article II. Deployment in the Public ROW

Section 2.1 Access to Public ROW

A. <u>Agreement</u>. Prior to installing in the Public ROW any wireless communication facility, or any pole built for the sole or primary purpose of supporting a wireless communication facility, or any tower, a person shall enter into an Agreement with the City expressly authorizing use of the Public ROW for the wireless communication facility, pole or tower proposed to be installed. The Agreement shall provide for the attachment to City-owned

Poles or structures in the Public Right-of-Way in addition to poles or structures owned by unrelated third parties, provided that the applicant secures the written consent of the third party for such attachment.

B. General Terms.

1.	The term of an Agreement shall be for up to		_ () years.	The Agreemen
	may be renewed for an additional term of	(_	_) years sub	ject to the mutua
	written agreement of the City and provider.			

- 2. The Agreement authorizes the provider's non-exclusive use of the Public ROW for the sole purpose of installing, maintaining and operating wireless communication facilities, including any pole built for the sole or primary purpose of supporting the wireless communication facilities and any tower, to provide the services expressly authorized in the Agreement, subject to applicable laws, this Chapter and the terms and conditions of the Agreement. The Agreement authorizes use only of the Public ROW in which the City has an actual interest. It is not a warranty of title or interest in any Public ROW and it does not confer on the provider any interest in any particular location or to a superior or preferred location within the Public ROW. Nothing herein shall authorize the use of the City's poles, towers, support structures or other structures in the Public ROW. All use of City poles, towers, support structures, and other structures in the Public ROW shall require a separate attachment agreement or be specifically provided for in the Agreement, and shall include the payment of fees for such use.
- 3. The provider shall, at its sole cost and expense, keep and maintain its wireless communication facilities, poles, support structures and towers in the Public ROW in a safe condition, and in good order and repair.
- 4. In the event of an emergency regarding the provider's small wireless facilities, or related poles, support structures or towers, the provider shall immediately notify the City of the nature of the emergency and planned response to the emergency.
- C. Permit Required. No person may construct, install or maintain in the Public ROW any wireless communication facilities without first receiving a permit from the City. Notwithstanding the foregoing, in the event of an emergency, a provider or its duly authorized representative may work in the Public ROW prior to obtaining a permit, provided that the provider shall contact the City prior to commencing the work and shall apply for a permit as soon as reasonably possible, but not later than twenty-four (24) hours after commencing the emergency work. For purposes of this subsection, an "emergency" means a circumstance in which immediate repair to damaged or malfunctioning facilities is necessary to restore lost service or prevent immediate harm to persons or property.
- D. <u>Permit Application Requirements</u>. The application shall be submitted by the provider or its duly authorized representative and shall contain the following:
 - 1. The applicant's name, address, telephone number, and email address, including emergency contact information for the applicant.

- 2. The names, addresses, telephone numbers, and email addresses of all consultants, if any, acting on behalf of the applicant or provider with respect to the filing of the application.
- 3. A description of the proposed work and wireless communication facility sufficient to demonstrate compliance with the provisions of this Chapter.
- 4. If applicable, a copy of the authorization from the owner of the pole, tower or support structure on or in which the wireless communication facility will be placed or attached.
- 5. Detailed construction drawings and photo simulations regarding the proposed wireless communication facility.
- 6. To the extent the proposed wireless communication facility involves collocation on a pole, tower or support structure, a structural report performed by a Wyoming licensed professional engineer evidencing that the pole, tower or support structure will support the collocation (or that the pole, tower or support structure will be modified to meet structural requirements) in accordance with applicable codes.
- 7. For any new above-ground wireless communication facilities, accurate visual depictions or representations, if not included in the construction drawings or photo simulations.
- 8. Any other submission requirements per published City policies or regulations.
- E. Proprietary or Confidential Information in Application. Applications are public records that may be made publicly available pursuant to the Wyoming Public Records Act, W.S. §16-4-201 through §16-4-205. Notwithstanding the foregoing, the applicant may designate portions of its application materials that it reasonably believes contain proprietary or confidential information as "proprietary" or "confidential" by clearly marking each portion of such materials accordingly, and the City shall treat the information as proprietary and confidential, subject to the Wyoming Public Records Act and the City's determination that the applicant's request for confidential or proprietary treatment of application materials is reasonable and in compliance with such law. The City shall not be required to incur any costs to protect the application materials from disclosure, other than the City's routine procedures for complying with the Wyoming Public Records Act.
- F. Ordinary Maintenance and Repair. A permit shall not be required for ordinary maintenance and repair. The provider or other person performing the ordinary maintenance and repair shall obtain any other permits required by applicable laws and shall notify the City in writing at least forty-eight (48) hours before performing the ordinary maintenance and repair.
- G. <u>Application Fees and Bonds</u>. All applications pursuant to this Chapter shall be accompanied by the requisite fees required by the City. Unless otherwise provided in an Agreement or agreed to in writing by the City, a performance or construction bond or other form of surety acceptable to the City equal to at least one hundred percent (100%) of the estimated cost of the work within the Public ROW shall be provided before the applicant commences work.

- H. <u>Effect of Permit</u>. A permit from the City authorizes an applicant to undertake only the activities in the Public ROW specified in the application and permit, and in accordance with this Chapter and any conditions included in the permit. A permit does not authorize attachment to or use of existing poles, towers, support structures or other structures in the Public ROW. A permittee or provider must obtain all necessary approvals from the owner of any pole, tower, support structure or other structure prior to any attachment or use. A permit does not create a property right for the applicant. The applicant shall not interfere with other uses or users of the Public ROW.
- I. <u>Duration</u>. Any permit for construction issued under this Chapter shall be valid for a period of one (1) year, provided that the one (1) year period may be extended for up to an additional one (1) year upon approval by the governing body or its designee upon the written request of the applicant (made prior to the end of the initial one [1] year period) if the failure to complete construction is as a result of circumstances beyond the reasonable control of the applicant.
- J. <u>Batch Permits</u>. An applicant may simultaneously submit not more than ten (10) applications for wireless communication facilities, or may file a single, consolidated application covering such wireless communication facilities, provided that the proposed wireless communication facilities are to be deployed on the same type of structure using similar equipment within the City.

Section 2.2 Administrative Review

- A. <u>Approval Process</u>. Small wireless facilities in the Public ROW may be approved through administrative review if the following requirements are met:
 - 1. A complete application is submitted, all fees are paid and a permit is obtained by the applicant or provider; and
 - 2. Each new, modified or replacement pole, tower or structure installed in the Public ROW shall not exceed the height limits of the respective zoning district. If a height limit is exceeded, then either a conditional use permit or special use permit is required; and
 - 3. The applicant complies with all of the other requirements of this Chapter.
- B. <u>Design Standards</u>. Subject to Section 2.2(A)(2) above, all poles built for the sole or primary purpose of supporting wireless communication facilities may be approved through administrative review if the following design guidelines are also acceptable to the City:
 - 1. Height, shape, design and color for poles and related equipment.
 - 2. Number, location and styles of poles that may be installed or used.
 - 3. Aesthetic approach for different types of poles and related equipment.
 - 4. Construction approach per wireless communication facility, including powering and metering.
 - 5. Structural integrity.

- 6. Set-backs for poles and ground-mounted equipment.
- 7. Ground-mounted equipment for small wireless facilities may be used only to house equipment in support of the operation of the facilities.
- 8. Lighting, marking and noise requirements.
- 9. Fencing/landscaping/screening/signage requirements.
- 10. Collocation analysis.
- 11. Use of decorative poles, where necessary.
- 12. A written report will be prepared, signed and sealed by a Wyoming licensed professional engineer or a qualified employee of the applicant, which assesses whether the proposed small wireless facility demonstrates compliance with the Radio Frequency emissions limits established by the FCC. The qualified employee of the applicant shall submit his or her qualifications with the report.

Section 2.3 Public ROW Construction and Installation Requirements

- A. <u>Lighting</u>. Towers may not be artificially lighted, unless required by public safety, the FAA or applicable City regulation.
- B. <u>State or Federal Requirements</u>. All towers and antennas must meet current standards and regulations of the FAA, FCC and any other agency of the local, state or federal government with authority to regulate towers and antennas.
- C. <u>Building Codes</u>. To ensure the structural integrity of poles and towers, the owner of a pole or tower shall ensure that the pole or tower is maintained in compliance with Industry standards and applicable State and local building code standards.
- D. <u>Public Notice</u>. For purposes of this Chapter, any application for a wireless communication facility, including small wireless facilities, variance, exception or appeal of a request for a permit requires public notice to all adjoining property owners and all owners of surrounding properties as may be required by the City Code.
- E. <u>Equipment Cabinets</u>. The equipment cabinets shall comply with all applicable building codes and zoning requirements. A site plan is also required.
- F. Inventory of Existing Sites. Not more than one (1) time per year, each applicant for a macrocell tower shall provide to the City an inventory of the provider's existing towers, antennas, or sites approved for towers or antennas, that are either within the jurisdiction of the City or within one (1) mile of the border thereof, including specific information about the location and tower height. The City may share such information with other applicants applying for administrative review or other permits under this Chapter or other organizations seeking to locate antennas within the jurisdiction of the City, provided, however, that the City is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

- G. <u>Color</u>. To the extent feasible, the antennas shall be placed and colored to blend into the architectural detail and coloring of the host structure. Towers shall be painted a color that best allows them to blend into the surroundings. The use of grays, blues, greens, dark bronze, browns or other site specific colors may be appropriate; however, each case shall be evaluated individually.
- H. <u>Signs</u>. No facilities may bear any signage other than that required by law or expressly permitted or required by the City.
- Visual Impact. All wireless communication facilities in residential districts, historic and downtown districts shall be sited and designed with stealth features to minimize adverse visual impacts on surrounding properties and the traveling public to the greatest extent reasonably possible, consistent with the proper functioning of the wireless communication facilities. Such wireless communication facilities and equipment enclosures shall be integrated through location and design to blend in with the existing characteristics of the site. Stealth and concealment techniques must be appropriate given the proposed location, design, visual environment, and nearby uses, structures, and natural features. Such wireless communication facilities shall also be designed to either resemble the surrounding landscape and other natural features where located in proximity to natural surroundings, or be compatible with the built environment or be consistent with other uses and improvements permitted in the relevant zone.

J. Building-mounted WCFs.

- All transmission equipment shall be concealed within existing architectural features to the extent feasible. Any new architectural features proposed to conceal the transmission equipment shall be designed to mimic the existing underlying structure, shall be as proportional as possible to the existing underlying structure or conform to the underlying use and shall use materials in similar quality, finish, color and texture as the existing underlying structure.
- 2. All roof-mounted transmission equipment shall be set back from all roof edges to the extent feasible consistent with the need for "line-of-sight" transmission and reception of signals.
- 3. Antenna arrays and supporting transmission equipment shall be installed so as to camouflage, disguise or conceal them to make them closely compatible with and blend into the setting or host structure.

K. Placement and Notice

- 1. All pole-mounted transmission equipment shall be mounted as close as technically possible to the pole so as to reduce the overall visual profile to the extent feasible subject to applicable safety codes.
- Prior to the installation or construction of a wireless communication facility within the Public ROW or utility easement, the provider must notify all utilities located within such Public ROW or utility easement regarding its proposed use of the Public ROW or utility easement.

- L. <u>Accessory Equipment</u>. All accessory equipment located at the base of a pole or tower shall be placed (at the provider's choice) in an existing building, underground, or in an equipment shelter or cabinet that is (a) designed to blend in with existing surroundings, using architecturally compatible construction and colors; and (b) be located so as to be unobtrusive as possible consistent with the proper functioning of the wireless communication facilities.
- M. <u>Site Design Flexibility</u>. Individual sites vary in the location of adjacent buildings, existing trees, topography and other local variables. By mandating certain design standards, there may result a project that could have been less intrusive if the location of the various elements of the project could have been placed in more appropriate locations within a given site. Therefore, the wireless communication facilities and supporting equipment may be installed so as to best camouflage, disguise or conceal them, to make the wireless communication facilities more closely compatible with and blend into the setting or host structure, upon approval by the City.

N. Landscaping, Screening and Fencing.

- Equipment shelters and cabinets and other on the ground ancillary equipment shall be screened with landscaping (except for those in the Public ROW) as required for the zone in which they are located or with another design acceptable to the City. Alternatively, where technically feasible, the applicant may incorporate the cabinet and other equipment into the base of a new pole (for example, for a small wireless facility) provided there is adequate space in the Public ROW and that Americans with Disabilities Act sidewalk accessibility requirements can be met. All provisions of the Americans with Disabilities Act (including, but not limited to, clear space requirements) shall be met by the provider.
- 2. Except for locations in the Public Right-of-Way, a site-obscuring fence (for example, wrought iron as opposed to barbed wire) shall be constructed around each tower and around related support or guy anchors at the height specified for the particular zoning district. Access shall only be through a locked gate. Any fence shall comply with the other design guidelines of the City Code.
- O. <u>New Poles</u>. To the extent technically feasible, new poles must be designed to match the existing light fixtures and other poles, and they shall serve a dual purpose (for example, a new light fixture, flag pole or banner clips).
- P. <u>As-builts and Maps</u>. The provider shall furnish to the City paper and electronic maps showing the location of its equipment in the Public ROW and as-builts after construction is completed.

Section 2.4 Attachment to and Replacement of Decorative Poles

- A. Notwithstanding anything to the contrary in this Chapter, an applicant may not install a small wireless facility on a decorative pole, or replace a decorative pole with a new decorative pole unless the City has determined, in its sole discretion, that each of the following conditions has been met:
 - 1. The application qualifies for issuance of a permit; and

- 2. The attachments and replacement pole are in keeping with the aesthetics of the decorative pole.
- B. An applicant may not install a small wireless facility on a decorative pole, replace a decorative pole with a new decorative pole, or install new above-ground facilities in the Historic District unless the City has determined, in its sole discretion, that each of the following conditions has also been met:
 - 1. The application qualifies for issuance of a permit; and
 - 2. The attachment and replacement pole are in keeping with the aesthetics and character of the decorative pole and Historic District.

Section 2.5 General Work Requirements

- A. <u>General Safety and Compliance with Laws</u>. The permittee shall employ due care during the installation, maintenance or any other work in the Public ROW, and shall comply with all safety and construction requirements of applicable laws, City guidelines, standards and practices and any additional commonly accepted safety standards.
- B. <u>Traffic Control.</u> Unless otherwise specified in the permit, the permittee shall erect a barrier around the perimeter of any excavation and provide appropriate traffic control devices, signs and lights to protect, warn and guide the public (vehicular and pedestrian) through the work zone. The manner and use of these devices shall be as described within a traffic control plan. The permittee shall maintain all barriers and other traffic control and safety devices related to an open excavation until the excavation is restored to a safe condition or as otherwise directed by the City.
- C. <u>Interference</u>. The permittee shall not interfere with any existing facilities or structures in the Public ROW, and shall locate its lines and equipment in such a manner as not to interfere with the usual traffic patterns (vehicular or pedestrian) or with the rights or reasonable convenience of owners of property that abut any Public ROW.
- D. <u>Utility Locates</u>. Before beginning any excavation in the Public ROW, the permittee shall comply with One Call of Wyoming.

E. Compliance with Permit

- All construction practices and activities shall be in accordance with the permit and approved final plans and specifications. The City and its representatives shall be provided access to the work site and such further information as they may require to ensure compliance with such requirements. All work that does not comply with the permit, the approved plans and specifications for the work, or the requirements of this Chapter, shall be removed at the sole expense of the permittee. The City may stop work in order to assure compliance with the provisions of this Chapter.
- 2. In addition to obtaining a permit for installation of a wireless communication facility, an applicant must obtain all other required approvals as required by the City.

Section 2.6 Additional Submittal Requirements for Macrocell Towers

In addition to the other requirements of this Chapter, the following shall also accompany applications for macrocell towers:

- A. Noise Study. A noise study shall be conducted, if requested by the City.
- B. <u>Site Plan</u>. A scaled site plan clearly indicating the location, type, height and width of the proposed tower, on-site land uses and zoning, adjacent land uses and zoning, separation distances, adjacent roadways, photo simulations, a depiction of all proposed transmission equipment, proposed means of access, setbacks from property lines, elevation drawings or renderings of the proposed tower and any other structures, topography, parking, utility runs and other information deemed necessary to assess compliance with this Chapter.

Section 2.7 Location of New Facilities

- A. The Provider shall not locate or maintain its wireless communication facilities so as to interfere with the use of the Public ROW by the City, by the general public or by other persons authorized to use or be present in or upon the Public ROW.
- B. Whenever any existing electric utilities, natural gas, water or sewer lines (or other public improvements) and communications facilities are located underground within a Public ROW, the Provider with permission to occupy the same portion of the Public ROW shall locate its wireless communication facilities underground at its own expense. The City may, in its sole discretion, approve above-ground placement of equipment cabinets, pedestals and similar equipment. For facilities or equipment such as wireless communication facilities that cannot, by their nature, operate unless located above-ground, the provider and City shall work to find a suitable location for such facilities or equipment, which may be outside of the Public ROW.
- C. In performing any work in or affecting the Public ROW, the provider, and any agent or contractor of the provider, shall comply with the provisions of this Chapter and all other applicable laws.
- D. The provider, or its agent or contractor, shall restore, repair and replace any portion of the Public ROW that is damaged or disturbed by the provider's wireless communication facilities or work in or adjacent to the Public ROW as required in this Chapter and all other applicable laws.

If the provider fails to timely restore, repair or replace the Public ROW as required in this subsection, the City or its contractor may do so and the provider shall pay the City's costs and expenses in completing the restoration, repair or replacement including attorneys' fees and expenses.

Section 2.8 Removal, Relocation and Abandonment

A. Within thirty (30) days following written notice from the City, the provider shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any of its wireless communication facilities within the Public ROW, including relocation of above-ground wireless communication facilities underground (consistent with the provisions of this Chapter), whenever the City has

determined, in its sole discretion, that such removal, relocation, change or alteration is necessary for the construction, repair, maintenance, or installation of any City improvement, the operations of the City in, under or upon the Public ROW, or otherwise is in the public interest. The provider shall be responsible to the City for any damages the City may incur as a result of the provider's failure to remove or relocate its wireless communication facilities.

- B. The City retains the right and privilege to cut or move any wireless communication facility located within the Public ROW of the City, as the City may determine, in its sole discretion, to be necessary, appropriate or useful in response to any public emergency. If circumstances permit, the City shall notify the provider and give the provider an opportunity to move its own facilities prior to cutting or removing the wireless communication facilities. In all cases the City shall notify the provider after cutting or removing the wireless communication facility as promptly as reasonably possible.
- C. A provider shall notify the City of abandonment of any wireless communication facility at the time the decision to abandon is made; however, in no case shall such notification be made later than thirty (30) days prior to abandonment. Following receipt of such notice, the provider shall remove its wireless communication facility at the provider's own expense, unless the City determines, in its sole discretion, that the wireless communication facility may be abandoned in place. The provider shall remain solely responsible and liable for all of its wireless communication facilities until they are removed from the Public ROW unless the City agrees in writing to take ownership of the abandoned wireless communication facilities.
- D. If the provider fails to timely protect, support, temporarily or permanently disconnect, remove, relocate, change or alter any of its wireless communication facilities or remove any of its abandoned wireless communication facilities as required in this subsection, the City or its contractor may do so and the provider shall pay all costs and expenses related to such work, including any damages the City incurs arising from the delay and attorneys' fees and expenses.

Section 2.9 Indemnification

The applicant and provider shall defend, indemnify, and hold harmless the City, its agents, officers, officials and employees from any and all damages, liabilities, injuries, losses, attorneys' fees, costs, and expenses, whether for personal injury, death or property damage, arising out of or in connection with the activities or performance of the applicant or provider. In the event the City becomes aware of any actions or claims, the City shall promptly notify the applicant and provider and reasonably cooperate in the defense. It is expressly agreed that the City shall have the right to approve, which approval shall not be unreasonably withheld, the legal counsel providing the City's defense, and the applicant and the provider, as applicable, shall reimburse the City for any costs, expenses and attorneys' fees directly and necessarily incurred by the City in the course of the defense.

Section 2.10 Venue

Venue for any judicial dispute between the City and provider shall be in the	Court in
, Wyoming.	

Section 2.11 Insurance

No person shall own or operate a wireless communication facility within the City without having secured and at all times maintained in place insurance coverage which conforms to the following:

- A. Comprehensive general liability, automobile, workers compensation, employers liability and umbrella insurance in amounts satisfactory to the City;
- B. For a wireless communication facility in the Public ROW or on City property, the commercial general liability insurance policy shall specifically include the City and its officers, officials, employees, and agents as additional insureds;
- C. All insurance policies shall be issued by an agent or representative of an insurance company licensed to do business in the State and with a Best's rating of at least _____; and
- D. Such policies shall not be modified or cancelled without thirty (30) days prior written notice being given to the City and the insurance must be replaced by the owner of the wireless communication facility up to its original amounts.

Section 2.12 Independent RF Technical and Legal Review.

Although the City intends for City staff to review applications to the extent feasible, the City may retain the services of an independent consultant and attorney of its choice to provide technical and legal evaluations of permit applications. The consultant shall have recognized qualifications in the field of Radio Frequency engineering and the attorney in the field of wireless communication facilities regulations and approval processes. The review may include, but is not limited to (a) the accuracy and completeness of the items submitted with the application; (b) the applicability of analysis and techniques and methodologies proposed by the applicant; (c) the validity of conclusions reached by the applicant; and (d) whether the proposed small wireless facilities comply with the applicable approval criteria set forth in this Chapter. The applicant shall pay the cost for any independent consultant and attorneys' fees through a deposit, estimated by the City, within ten (10) business days of the City's request. When the City requests such payment, the application shall be deemed incomplete for purposes of application processing time lines until the deposit is received. In the event that such costs and fees do not exceed the deposit amount, the City shall refund any unused portion within thirty (30) days after the final permit is released or, if no final permit is released, within thirty (30) days after the City receives a written request from the applicant. If the costs and fees exceed the deposit amount, then the applicant shall pay the difference to the City before the permit is issued. The consultant and attorney shall provide an itemized description of the services provided and related fees and costs. The fees shall be limited to a reasonable approximation of costs and the costs shall be reasonable.

Section 2.13 Federal Shot Clocks

A. <u>Eligible Facilities Requests</u>. This subsection implements Section 6409(a) of the Spectrum Act, 47 U.S.C. Section 1455(a), interpreted by the FCC in its Report and Order No. 14-153, which requires a state or local government to approve any Eligible Facilities Request for a modification of an existing tower or base station that does not result in a substantial change to the physical dimensions of such tower or base station. Eligible Facilities Requests shall be governed by the provisions of Federal law including, but not limited to, application review, the sixty (60) day shot clock, tolling and the deemed granted remedy. Eligible Facilities Requests are subject to administrative review by the City.

- B. <u>Small Wireless Facilities Collocation on Existing Structures</u>. This subsection implements the sixty (60) day shot clock which is contained in the FCC's Declaratory Ruling and Third Report and Order adopted September 26, 2018, regarding the collocation of small wireless facilities on existing structures. These requests shall be governed by the provisions of Federal law including, but not limited to, application review and incompleteness, resetting of the sixty (60) day shot clock once upon timely notice of incompleteness, tolling and available remedies.
- C. <u>Small Wireless Facilities Construction (New Structures)</u>. This subsection implements the ninety (90) day shot clock which is contained in the FCC's Declaratory Ruling and Third Report and Order adopted September 26, 2018, regarding the construction of small wireless facilities on a new structure. These requests shall be governed by the provisions of Federal law including, but not limited to, application review and incompleteness, resetting of the ninety (90) day shot clock once upon timely notice of incompleteness, tolling and available remedies.
- D. <u>Collocation for Other Than Small Wireless Facilities</u>. This subsection implements, in part, 47 U.S.C. Section 332(c)(7) of the Federal Communications Act of 1934, as amended, as interpreted by the FCC regarding collocation applications for other than small wireless facilities including, but not limited to, application review, the ninety (90) day shot clock and tolling.
- E. New Sites or Towers. This subsection implements, in part, 47 U.S.C. Section 332(c)(7) of the Federal Communications Act of 1934, as amended, as interpreted by the FCC regarding new site or tower applications including, but not limited to, application review, the one hundred fifty (150) day shot clock and tolling.

Section 2.14 Other Review and Approvals

All other proposed installations within the Public ROW involving wireless communication facilities (for example, where the facilities do not qualify as small wireless facilities), shall require the issuance of a conditional use permit or special use permit under the City Code.

Section 2.15 Violation of this Chapter

Section 2.16 Effective Date

Violation of any of the provisions of this Chapter shall be punishable with a fine of up to \$______ for each violation. Each day that a violation occurs or is allowed to exist by the applicant or provider constitutes a separate offense.

This Ordinance shall take effect on the	day of	, 20

AN ORDINANCE OF THE TOWN OF ADOPTING A NEW CHAPTER ENTITLED "WIRELESS COMMUNICATION FACILITIES REGULATIONS" AND PROVIDING FOR AN EFFECTIVE DATE.
WHEREAS, the Town of ("Town") desires to encourage wireless infrastructure investment by providing a fair and predictable process for the deployment of small wireless facilities, while enabling the Town to promote the management of public streets, highways, rights-of-way and public places in the overall interests of the public health, safety and welfare; and
WHEREAS, federal laws and regulations that govern local zoning standards and procedures for wireless communication facilities have substantially changed; and
WHEREAS, the Town of desires to update its local standards and procedures to reasonably regulate wireless communication facilities aesthetics, to protect and promote the Town's unique character in a manner consistent with state and federal laws and regulations; and
WHEREAS, the Town recognizes that small wireless facilities are critical to delivering wireless access to advanced technology, broadband and 9-1-1 services to homes, businesses and schools within the Town; and
WHEREAS, the Town recognizes that small wireless facilities, including facilities commonly referred to as small cells and distributed antenna systems, often may be deployed most effectively in the public streets, highways, rights-of-way and public places; and
WHEREAS, the Town intends to fully comply with state and federal law; and
WHEREAS, federal laws and regulations, wireless technology and consumer usage have reshaped the environment within which wireless communication facilities are permitted and regulated; and
WHEREAS, following appropriate procedures and public notice, on, the Planning Commission or other reviewing entity conducted a hearing on proposed amendments to the Town Code, and recommended that the governing body approve the proposed amendments; and
WHEREAS, on, the governing body conducted a lawfully-noticed public hearing and received the recommendations of the Planning Commission or other reviewing entity regarding the proposed amendments.
NOW, THEREFORE, BE IT ORDAINED by the governing body of the Town of that the Town Code of the Town of shall be amended as follows:
Section 1.1 Amendment. That the Town Code is hereby amended by adding the following Chapter entitled "Wireless Communication Facilities Regulations".

Section 1.2 Definitions

- a. "Administrative review" means review of an application by the Town relating to the issuance of a permit to determine whether the issuance of a permit is in conformity with the applicable provisions of this Chapter.
- b. "Antenna" means communications equipment that transmits and/or receives radio frequency signals used in the provision of wireless services. This definition does not apply to broadcast antennas, antennas designed for amateur radio use or satellite dishes for residential or household purposes.
- c. **"Antenna array"** means a single or group of antenna elements and associated mounting hardware, transmission lines, remote radio units, or other appurtenances which share a common attachment device such as a mounting frame for the sole purpose of transmitting or receiving wireless communication signals.
- d. **"Applicable codes"** means uniform building, fire, safety, electrical, plumbing or mechanical codes adopted by a recognized national code organization to the extent such codes have been adopted by the Town, including any amendments.
- e. "Applicant" means any person who submits an application under this Chapter.
- f. "Application" means a written request, on a form provided by the Town, for a permit.
- g. "Collocation" means the mounting or installation of equipment on an existing tower, building or structure for the purpose of transmitting or receiving radio frequency signals for communications purposes.
- h. "Decorative pole" means a pole that is specially designed and placed for aesthetic purposes.
- i. "Distributed Antenna System" means a network consisting of transceiver equipment at a central hub site to support multiple antenna locations throughout the desired coverage area.
- j. "Eligible Facilities Request" shall be as defined in federal regulations.
- k. "FAA" means the Federal Aviation Administration.
- I. "FCC" means the Federal Communications Commission.
- m. "Governing body" means the group of elected officials which is able to make decisions on behalf of the Town (for example, the Town Council).
- n. **"Laws"** means, collectively, any and all Federal, State, or local law, statute, common law, code, rule, regulation, order, or ordinance.
- o. "Macrocell" means an antenna or antennas mounted on a tower, ground-based mast, rooftops or structures, at a height that provides coverage to the surrounding area.

- p. "Ordinary maintenance and repair" means inspections, testing or repair that maintain functional capacity, aesthetic and structural integrity of a wireless communication facility and the associated structure, pole or tower, and that does not involve impeding, damaging or disturbing any portion of the Public ROW.
- q. **"Permit"** means a written authorization (in electronic or hard copy format) to install, at a specified location in the Public ROW, a wireless communication facility.
- r. "Permittee" means an applicant that has received a permit under this Chapter.
- s. **"Person"** means an individual, corporation, limited liability company, partnership, association, trust or other entity or organization.
- t. "Pole" means a legally constructed pole, such as a utility, lighting or similar pole made of wood, concrete, metal or other material, located or to be located within the Public Right of Way.
- u. "**Provider**" means a wireless services provider or wireless infrastructure provider and includes any person that owns or operates wireless communication facilities within the Public ROW.
- v. "Public Right-of-Way" or "Public ROW" means the area on, below, or above property that has been designated for use as or is used for a public roadway, highway, street, sidewalk, alley or similar purpose, and for purposes of this Chapter shall include public utility easements, but only to the extent the Town has the authority to permit use of the public utility easement for wireless communication facilities.
- w. "Public utility easement" means, unless otherwise specified or restricted by the terms of the easement, the area on, below, or above a property in which the property owner has dedicated an easement for use by utilities. Public utility easement does not include an easement dedicated solely for Town use, or where the proposed use by the provider is inconsistent with the terms of any easement granted to the Town.
- x. "Replace" or "Replacement" means, in connection with wireless communication facilities and a corresponding pole, structure or tower, to replace (or the replacement of) the same with something that is substantially similar in design, size, color and scale to the existing facilities or structure and in conformance with this Chapter and any other applicable Town regulations.
- y. "Small wireless facilities" encompass facilities that meet the following conditions: (1) the facilities -- (i) are mounted on structures fifty (50) feet or less in height including their antennas, or (ii) are mounted on structures no more than ten percent (10%) taller than other adjacent structures, or (iii) do not extend existing structures on which they are located to a height of more than fifty (50) feet or by more than ten percent (10%), whichever is greater; (2) each antenna associated with the deployment, excluding associated antenna equipment, is no more than three (3) cubic feet in volume; (3) all other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is no more than twenty eight (28) cubic feet in volume; (4) the facilities do not require antenna structure registration under federal law; (5) the facilities are not located on Tribal land as defined under federal law; and (6) the facilities do not result in human exposure

to radiofrequency radiation in excess of the applicable safety standards specified under federal law. The following types of associated ancillary equipment are not included in the calculation of equipment volume: electric meter, concealment elements, telecommunications demarcation box, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs for the connection of power and other services.

- z. "State" means the State of Wyoming.
- aa. "Stealth" means a design that minimizes the visual impact of wireless communication facilities by camouflaging, disguising, screening or blending them into the surrounding environment. Examples of stealth design include but are not limited to facilities disguised as trees (monopines), flagpoles, utility and light poles, bell towers, clock towers, ball field lights and architecturally screened roof-mounted antennas or flush-mounted antennas that are either painted to match or enclosed in an architecturally, applicable box.
- bb. "Substantial change" is as defined in federal regulations.
- cc. "**Tower**" means any structure in the Public ROW built for the sole or primary purpose of supporting a wireless communication facility.
- dd. "Tower height" means the vertical distance measured from the base of the tower structure at grade to the highest point of the structure including the antenna. A lightning rod, not to exceed ten (10) feet in height, shall not be included within tower height.
- ee. "Town" means the Town of _____, Wyoming.
- ff. "Transmission equipment" means equipment that facilitates transmission for any FCC-licensed or authorized wireless communication service, including, but not limited to, radio transceivers, antennas, microwave dishes, coaxial or fiber-optic cable and backup power supplies. The term includes equipment associated with wireless communication services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.
- gg. "Wireless Communication Facility" or "Wireless Communication Facilities" means, collectively, the equipment at a fixed location or locations within the Public ROW that enables wireless communication services, including for example: radio transceivers, support structures, poles, antennas, coaxial, fiber-optic or other cabling, power supplies (including battery backup), and comparable equipment, regardless of technological configuration and small wireless facilities and distributed antenna systems.
- hh. **"Wireless infrastructure provider"** means a person, other than a wireless services provider, that builds or installs towers, wireless transmission equipment, wireless facilities poles or wireless support structures.
- ii. **"Wireless services"** means any wireless services using licensed or unlicensed spectrum, whether at a fixed location or mobile, provided to the public.
- ij. "Wireless services provider" means a person who provides wireless services.

Article II. Deployment in the Public ROW

Section 2.1 Access to Public ROW

A. <u>Agreement</u>. Prior to installing in the Public ROW any wireless communication facility, or any pole built for the sole or primary purpose of supporting a wireless communication facility, or any tower, a person shall enter into an Agreement with the Town expressly authorizing use of the Public ROW for the wireless communication facility, pole or tower proposed to be installed. The Agreement shall provide for the attachment to Town-owned Poles or structures in the Public Right-of-Way in addition to poles or structures owned by unrelated third parties, provided that the applicant secures the written consent of the third party for such attachment.

B. <u>General Terms</u>.

- 1. The term of an Agreement shall be for up to ____ (__) years. The Agreement may be renewed for an additional term of ____ (__) years subject to the mutual written agreement of the Town and provider.
- The Agreement authorizes the provider's non-exclusive use of the Public ROW for the sole purpose of installing, maintaining and operating wireless communication facilities, including any pole built for the sole or primary purpose of supporting the wireless communication facilities and any tower, to provide the services expressly authorized in the Agreement, subject to applicable laws, this Chapter and the terms and conditions of the Agreement. The Agreement authorizes use only of the Public ROW in which the Town has an actual interest. It is not a warranty of title or interest in any Public ROW and it does not confer on the provider any interest in any particular location or to a superior or preferred location within the Public ROW. Nothing herein shall authorize the use of the Town's poles, towers, support structures or other structures in the Public ROW. All use of Town poles, towers, support structures, and other structures in the Public ROW shall require a separate attachment agreement or be specifically provided for in the Agreement, and shall include the payment of fees for such use.
- 3. The provider shall, at its sole cost and expense, keep and maintain its wireless communication facilities, poles, support structures and towers in the Public ROW in a safe condition, and in good order and repair.
- 4. In the event of an emergency regarding the provider's small wireless facilities, or related poles, support structures or towers, the provider shall immediately notify the Town of the nature of the emergency and planned response to the emergency.
- C. Permit Required. No person may construct, install or maintain in the Public ROW any wireless communication facilities without first receiving a permit from the Town. Notwithstanding the foregoing, in the event of an emergency, a provider or its duly authorized representative may work in the Public ROW prior to obtaining a permit, provided that the provider shall contact the Town prior to commencing the work and shall apply for a permit as soon as reasonably possible, but not later than twenty-four (24) hours after commencing the emergency work. For purposes of this subsection, an "emergency" means a circumstance in which immediate repair to damaged or malfunctioning facilities is necessary to restore lost service or prevent immediate harm to persons or property.

- D. <u>Permit Application Requirements</u>. The application shall be submitted by the provider or its duly authorized representative and shall contain the following:
 - 1. The applicant's name, address, telephone number, and email address, including emergency contact information for the applicant.
 - 2. The names, addresses, telephone numbers, and email addresses of all consultants, if any, acting on behalf of the applicant or provider with respect to the filing of the application.
 - 3. A description of the proposed work and wireless communication facility sufficient to demonstrate compliance with the provisions of this Chapter.
 - 4. If applicable, a copy of the authorization from the owner of the pole, tower or support structure on or in which the wireless communication facility will be placed or attached.
 - 5. Detailed construction drawings and photo simulations regarding the proposed wireless communication facility.
 - 6. To the extent the proposed wireless communication facility involves collocation on a pole, tower or support structure, a structural report performed by a Wyoming licensed professional engineer evidencing that the pole, tower or support structure will support the collocation (or that the pole, tower or support structure will be modified to meet structural requirements) in accordance with applicable codes.
 - 7. For any new above-ground wireless communication facilities, accurate visual depictions or representations, if not included in the construction drawings or photo simulations.
 - 8. Any other submission requirements per published Town policies or regulations.
- E. Proprietary or Confidential Information in Application. Applications are public records that may be made publicly available pursuant to the Wyoming Public Records Act, W.S. §16-4-201 through §16-4-205. Notwithstanding the foregoing, the applicant may designate portions of its application materials that it reasonably believes contain proprietary or confidential information as "proprietary" or "confidential" by clearly marking each portion of such materials accordingly, and the Town shall treat the information as proprietary and confidential, subject to the Wyoming Public Records Act and the Town's determination that the applicant's request for confidential or proprietary treatment of application materials is reasonable and in compliance with such law. The Town shall not be required to incur any costs to protect the application materials from disclosure, other than the Town's routine procedures for complying with the Wyoming Public Records Act.
- F. <u>Ordinary Maintenance and Repair</u>. A permit shall not be required for ordinary maintenance and repair. The provider or other person performing the ordinary maintenance and repair shall obtain any other permits required by applicable laws and shall notify the Town in writing at least forty-eight (48) hours before performing the ordinary maintenance and repair.

- G. <u>Application Fees and Bonds.</u> All applications pursuant to this Chapter shall be accompanied by the requisite fees required by the Town. Unless otherwise provided in an Agreement or agreed to in writing by the Town, a performance or construction bond or other form of surety acceptable to the Town equal to at least one hundred percent (100%) of the estimated cost of the work within the Public ROW shall be provided before the applicant commences work.
- H. <u>Effect of Permit</u>. A permit from the Town authorizes an applicant to undertake only the activities in the Public ROW specified in the application and permit, and in accordance with this Chapter and any conditions included in the permit. A permit does not authorize attachment to or use of existing poles, towers, support structures or other structures in the Public ROW. A permittee or provider must obtain all necessary approvals from the owner of any pole, tower, support structure or other structure prior to any attachment or use. A permit does not create a property right for the applicant. The applicant shall not interfere with other uses or users of the Public ROW.
- I. <u>Duration</u>. Any permit for construction issued under this Chapter shall be valid for a period of one (1) year, provided that the one (1) year period may be extended for up to an additional one (1) year upon approval by the governing body or its designee upon the written request of the applicant (made prior to the end of the initial one [1] year period) if the failure to complete construction is as a result of circumstances beyond the reasonable control of the applicant.
- J. <u>Batch Permits</u>. An applicant may simultaneously submit not more than ten (10) applications for wireless communication facilities, or may file a single, consolidated application covering such wireless communication facilities, provided that the proposed wireless communication facilities are to be deployed on the same type of structure using similar equipment within the Town.

Section 2.2 Administrative Review

- A. <u>Approval Process</u>. Small wireless facilities in the Public ROW may be approved through administrative review if the following requirements are met:
 - 1. A complete application is submitted, all fees are paid and a permit is obtained by the applicant or provider; and
 - 2. Each new, modified or replacement pole, tower or structure installed in the Public ROW shall not exceed the height limits of the respective zoning district. If a height limit is exceeded, then either a conditional use permit or special use permit is required; and
 - 3. The applicant complies with all of the other requirements of this Chapter.
- B. <u>Design Standards</u>. Subject to Section 2.2(A)(2) above, all poles built for the sole or primary purpose of supporting wireless communication facilities may be approved through administrative review if the following design guidelines are also acceptable to the Town:
 - 1. Height, shape, design and color for poles and related equipment.
 - 2. Number, location and styles of poles that may be installed or used.

- 3. Aesthetic approach for different types of poles and related equipment.
- 4. Construction approach per wireless communication facility, including powering and metering.
- 5. Structural integrity.
- 6. Set-backs for poles and ground-mounted equipment.
- 7. Ground-mounted equipment for small wireless facilities may be used only to house equipment in support of the operation of the facilities.
- 8. Lighting, marking and noise requirements.
- 9. Fencing/landscaping/screening/signage requirements.
- 10. Collocation analysis.
- 11. Use of decorative poles, where necessary.
- 12. A written report will be prepared, signed and sealed by a Wyoming licensed professional engineer or a qualified employee of the applicant, which assesses whether the proposed small wireless facility demonstrates compliance with the Radio Frequency emissions limits established by the FCC. The qualified employee of the applicant shall submit his or her qualifications with the report.

Section 2.3 Public ROW Construction and Installation Requirements

- A. <u>Lighting</u>. Towers may not be artificially lighted, unless required by public safety, the FAA or applicable Town regulation.
- B. <u>State or Federal Requirements</u>. All towers and antennas must meet current standards and regulations of the FAA, FCC and any other agency of the local, state or federal government with authority to regulate towers and antennas.
- C. <u>Building Codes</u>. To ensure the structural integrity of poles and towers, the owner of a pole or tower shall ensure that the pole or tower is maintained in compliance with Industry standards and applicable State and local building code standards.
- D. <u>Public Notice</u>. For purposes of this Chapter, any application for a wireless communication facility, including small wireless facilities, variance, exception or appeal of a request for a permit requires public notice to all adjoining property owners and all owners of surrounding properties as may be required by the Town Code.
- E. <u>Equipment Cabinets</u>. The equipment cabinets shall comply with all applicable building codes and zoning requirements. A site plan is also required.
- F. <u>Inventory of Existing Sites</u>. Not more than one (1) time per year, each applicant for a macrocell tower shall provide to the Town an inventory of the provider's existing towers, antennas, or sites approved for towers or antennas, that are either within the jurisdiction

of the Town or within one (1) mile of the border thereof, including specific information about the location and tower height. The Town may share such information with other applicants applying for administrative review or other permits under this Chapter or other organizations seeking to locate antennas within the jurisdiction of the Town, provided, however, that the Town is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

- G. <u>Color</u>. To the extent feasible, the antennas shall be placed and colored to blend into the architectural detail and coloring of the host structure. Towers shall be painted a color that best allows them to blend into the surroundings. The use of grays, blues, greens, dark bronze, browns or other site specific colors may be appropriate; however, each case shall be evaluated individually.
- H. <u>Signs</u>. No facilities may bear any signage other than that required by law or expressly permitted or required by the Town.
- Visual Impact. All wireless communication facilities in residential districts, historic and downtown districts shall be sited and designed with stealth features to minimize adverse visual impacts on surrounding properties and the traveling public to the greatest extent reasonably possible, consistent with the proper functioning of the wireless communication facilities. Such wireless communication facilities and equipment enclosures shall be integrated through location and design to blend in with the existing characteristics of the site. Stealth and concealment techniques must be appropriate given the proposed location, design, visual environment, and nearby uses, structures, and natural features. Such wireless communication facilities shall also be designed to either resemble the surrounding landscape and other natural features where located in proximity to natural surroundings, or be compatible with the built environment or be consistent with other uses and improvements permitted in the relevant zone.

J. <u>Building-mounted WCFs</u>.

- 1. All transmission equipment shall be concealed within existing architectural features to the extent feasible. Any new architectural features proposed to conceal the transmission equipment shall be designed to mimic the existing underlying structure, shall be as proportional as possible to the existing underlying structure or conform to the underlying use and shall use materials in similar quality, finish, color and texture as the existing underlying structure.
- 2. All roof-mounted transmission equipment shall be set back from all roof edges to the extent feasible consistent with the need for "line-of-sight" transmission and reception of signals.
- 3. Antenna arrays and supporting transmission equipment shall be installed so as to camouflage, disguise or conceal them to make them closely compatible with and blend into the setting or host structure.

K. Placement and Notice

 All pole-mounted transmission equipment shall be mounted as close as technically possible to the pole so as to reduce the overall visual profile to the extent feasible subject to applicable safety codes.

- Prior to the installation or construction of a wireless communication facility within the Public ROW or utility easement, the provider must notify all utilities located within such Public ROW or utility easement regarding its proposed use of the Public ROW or utility easement.
- L. <u>Accessory Equipment</u>. All accessory equipment located at the base of a pole or tower shall be placed (at the provider's choice) in an existing building, underground, or in an equipment shelter or cabinet that is (a) designed to blend in with existing surroundings, using architecturally compatible construction and colors; and (b) be located so as to be unobtrusive as possible consistent with the proper functioning of the wireless communication facilities.
- M. <u>Site Design Flexibility</u>. Individual sites vary in the location of adjacent buildings, existing trees, topography and other local variables. By mandating certain design standards, there may result a project that could have been less intrusive if the location of the various elements of the project could have been placed in more appropriate locations within a given site. Therefore, the wireless communication facilities and supporting equipment may be installed so as to best camouflage, disguise or conceal them, to make the wireless communication facilities more closely compatible with and blend into the setting or host structure, upon approval by the Town.

N. Landscaping, Screening and Fencing.

- Equipment shelters and cabinets and other on the ground ancillary equipment shall be screened with landscaping (except for those in the Public ROW) as required for the zone in which they are located or with another design acceptable to the Town. Alternatively, where technically feasible, the applicant may incorporate the cabinet and other equipment into the base of a new pole (for example, for a small wireless facility) provided there is adequate space in the Public ROW and that Americans with Disabilities Act sidewalk accessibility requirements can be met. All provisions of the Americans with Disabilities Act (including, but not limited to, clear space requirements) shall be met by the provider.
- 2. Except for locations in the Public Right-of-Way, a site-obscuring fence (for example, wrought iron as opposed to barbed wire) shall be constructed around each tower and around related support or guy anchors at the height specified for the particular zoning district. Access shall only be through a locked gate. Any fence shall comply with the other design guidelines of the Town Code.
- O. <u>New Poles</u>. To the extent technically feasible, new poles must be designed to match the existing light fixtures and other poles, and they shall serve a dual purpose (for example, a new light fixture, flag pole or banner clips).

P. <u>As-builts and Maps</u>. The provider shall furnish to the Town paper and electronic maps showing the location of its equipment in the Public ROW and as-builts after construction is completed.

Section 2.4 Attachment to and Replacement of Decorative Poles

- A. Notwithstanding anything to the contrary in this Chapter, an applicant may not install a small wireless facility on a decorative pole, or replace a decorative pole with a new decorative pole unless the Town has determined, in its sole discretion, that each of the following conditions has been met:
 - 1. The application qualifies for issuance of a permit; and
 - 2. The attachments and replacement pole are in keeping with the aesthetics of the decorative pole.
- B. An applicant may not install a small wireless facility on a decorative pole, replace a decorative pole with a new decorative pole, or install new above-ground facilities in the Historic District unless the Town has determined, in its sole discretion, that each of the following conditions has also been met:
 - 1. The application qualifies for issuance of a permit; and
 - 2. The attachment and replacement pole are in keeping with the aesthetics and character of the decorative pole and Historic District.

Section 2.5 General Work Requirements

- A. <u>General Safety and Compliance with Laws</u>. The permittee shall employ due care during the installation, maintenance or any other work in the Public ROW, and shall comply with all safety and construction requirements of applicable laws, Town guidelines, standards and practices and any additional commonly accepted safety standards.
- B. <u>Traffic Control</u>. Unless otherwise specified in the permit, the permittee shall erect a barrier around the perimeter of any excavation and provide appropriate traffic control devices, signs and lights to protect, warn and guide the public (vehicular and pedestrian) through the work zone. The manner and use of these devices shall be as described within a traffic control plan. The permittee shall maintain all barriers and other traffic control and safety devices related to an open excavation until the excavation is restored to a safe condition or as otherwise directed by the Town.
- C. <u>Interference</u>. The permittee shall not interfere with any existing facilities or structures in the Public ROW, and shall locate its lines and equipment in such a manner as not to interfere with the usual traffic patterns (vehicular or pedestrian) or with the rights or reasonable convenience of owners of property that abut any Public ROW.
- D. <u>Utility Locates</u>. Before beginning any excavation in the Public ROW, the permittee shall comply with One Call of Wyoming.

E. <u>Compliance with Permit</u>

- All construction practices and activities shall be in accordance with the permit and approved final plans and specifications. The Town and its representatives shall be provided access to the work site and such further information as they may require to ensure compliance with such requirements. All work that does not comply with the permit, the approved plans and specifications for the work, or the requirements of this Chapter, shall be removed at the sole expense of the permittee. The Town may stop work in order to assure compliance with the provisions of this Chapter.
- 2. In addition to obtaining a permit for installation of a wireless communication facility, an applicant must obtain all other required approvals as required by the Town.

Section 2.6 Additional Submittal Requirements for Macrocell Towers

In addition to the other requirements of this Chapter, the following shall also accompany applications for macrocell towers:

- A. <u>Noise Study</u>. A noise study shall be conducted, if requested by the Town.
- B. <u>Site Plan.</u> A scaled site plan clearly indicating the location, type, height and width of the proposed tower, on-site land uses and zoning, adjacent land uses and zoning, separation distances, adjacent roadways, photo simulations, a depiction of all proposed transmission equipment, proposed means of access, setbacks from property lines, elevation drawings or renderings of the proposed tower and any other structures, topography, parking, utility runs and other information deemed necessary to assess compliance with this Chapter.

Section 2.7 Location of New Facilities

- A. The Provider shall not locate or maintain its wireless communication facilities so as to interfere with the use of the Public ROW by the Town, by the general public or by other persons authorized to use or be present in or upon the Public ROW.
- B. Whenever any existing electric utilities, natural gas, water or sewer lines (or other public improvements) and communications facilities are located underground within a Public ROW, the Provider with permission to occupy the same portion of the Public ROW shall locate its wireless communication facilities underground at its own expense. The Town may, in its sole discretion, approve above-ground placement of equipment cabinets, pedestals and similar equipment. For facilities or equipment such as wireless communication facilities that cannot, by their nature, operate unless located above-ground, the provider and Town shall work to find a suitable location for such facilities or equipment, which may be outside of the Public ROW.
- C. In performing any work in or affecting the Public ROW, the provider, and any agent or contractor of the provider, shall comply with the provisions of this Chapter and all other applicable laws.
- D. The provider, or its agent or contractor, shall restore, repair and replace any portion of the Public ROW that is damaged or disturbed by the provider's wireless communication facilities or work in or adjacent to the Public ROW as required in this Chapter and all other applicable laws.

If the provider fails to timely restore, repair or replace the Public ROW as required in this subsection, the Town or its contractor may do so and the provider shall pay the Town's costs and expenses in completing the restoration, repair or replacement including attorneys' fees and expenses.

Section 2.8 Removal, Relocation and Abandonment

- A. Within thirty (30) days following written notice from the Town, the provider shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any of its wireless communication facilities within the Public ROW, including relocation of above-ground wireless communication facilities underground (consistent with the provisions of this Chapter), whenever the Town has determined, in its sole discretion, that such removal, relocation, change or alteration is necessary for the construction, repair, maintenance, or installation of any Town improvement, the operations of the Town in, under or upon the Public ROW, or otherwise is in the public interest. The provider shall be responsible to the Town for any damages the Town may incur as a result of the provider's failure to remove or relocate its wireless communication facilities.
- B. The Town retains the right and privilege to cut or move any wireless communication facility located within the Public ROW of the Town, as the Town may determine, in its sole discretion, to be necessary, appropriate or useful in response to any public emergency. If circumstances permit, the Town shall notify the provider and give the provider an opportunity to move its own facilities prior to cutting or removing the wireless communication facilities. In all cases the Town shall notify the provider after cutting or removing the wireless communication facility as promptly as reasonably possible.
- C. A provider shall notify the Town of abandonment of any wireless communication facility at the time the decision to abandon is made; however, in no case shall such notification be made later than thirty (30) days prior to abandonment. Following receipt of such notice, the provider shall remove its wireless communication facility at the provider's own expense, unless the Town determines, in its sole discretion, that the wireless communication facility may be abandoned in place. The provider shall remain solely responsible and liable for all of its wireless communication facilities until they are removed from the Public ROW unless the Town agrees in writing to take ownership of the abandoned wireless communication facilities.
- D. If the provider fails to timely protect, support, temporarily or permanently disconnect, remove, relocate, change or alter any of its wireless communication facilities or remove any of its abandoned wireless communication facilities as required in this subsection, the Town or its contractor may do so and the provider shall pay all costs and expenses related to such work, including any damages the Town incurs arising from the delay and attorneys' fees and expenses.

Section 2.9 Indemnification

The applicant and provider shall defend, indemnify, and hold harmless the Town, its agents, officers, officials and employees from any and all damages, liabilities, injuries, losses, attorneys' fees, costs, and expenses, whether for personal injury, death or property damage, arising out of or in connection with the activities or performance of the applicant or provider. In the event the

Town becomes aware of any actions or claims, the Town shall promptly notify the applicant and provider and reasonably cooperate in the defense. It is expressly agreed that the Town shall have the right to approve, which approval shall not be unreasonably withheld, the legal counsel providing the Town's defense, and the applicant and the provider, as applicable, shall reimburse the Town for any costs, expenses and attorneys' fees directly and necessarily incurred by the Town in the course of the defense.

Section 2.10 Venue

Venue for	any judicial dispute	between the T	own and provider	shall be in the	 Court
in	, Wyoming.		·		

Section 2.11 Insurance

No person shall own or operate a wireless communication facility within the Town without having secured and at all times maintained in place insurance coverage which conforms to the following:

- A. Comprehensive general liability, automobile, workers compensation, employers liability and umbrella insurance in amounts satisfactory to the Town;
- B. For a wireless communication facility in the Public ROW or on Town property, the commercial general liability insurance policy shall specifically include the Town and its officers, officials, employees, and agents as additional insureds;
- C. All insurance policies shall be issued by an agent or representative of an insurance company licensed to do business in the State and with a Best's rating of at least _____; and
- D. Such policies shall not be modified or cancelled without thirty (30) days prior written notice being given to the Town and the insurance must be replaced by the owner of the wireless communication facility up to its original amounts.

Section 2.12 Independent RF Technical and Legal Review.

Although the Town intends for Town staff to review applications to the extent feasible, the Town may retain the services of an independent consultant and attorney of its choice to provide technical and legal evaluations of permit applications. The consultant shall have recognized qualifications in the field of Radio Frequency engineering and the attorney in the field of wireless communication facilities regulations and approval processes. The review may include, but is not limited to (a) the accuracy and completeness of the items submitted with the application; (b) the applicability of analysis and techniques and methodologies proposed by the applicant; (c) the validity of conclusions reached by the applicant; and (d) whether the proposed small wireless facilities comply with the applicable approval criteria set forth in this Chapter. The applicant shall pay the cost for any independent consultant and attorneys' fees through a deposit, estimated by the Town, within ten (10) business days of the Town's request. When the Town requests such payment, the application shall be deemed incomplete for purposes of application processing time lines until the deposit is received. In the event that such costs and fees do not exceed the deposit amount, the Town shall refund any unused portion within thirty (30) days after the final permit is released or, if no final permit is released, within thirty (30) days after the Town receives a written request from the applicant. If the costs and fees exceed the deposit amount, then the applicant shall pay the difference to the Town before the permit is issued. The consultant and attorney shall provide an itemized description of the services provided and related fees and costs. The fees shall be limited to a reasonable approximation of costs and the costs shall be reasonable.

Section 2.13 Federal Shot Clocks

- A. <u>Eligible Facilities Requests</u>. This subsection implements Section 6409(a) of the Spectrum Act, 47 U.S.C. Section 1455(a), interpreted by the FCC in its Report and Order No. 14-153, which requires a state or local government to approve any Eligible Facilities Request for a modification of an existing tower or base station that does not result in a substantial change to the physical dimensions of such tower or base station. Eligible Facilities Requests shall be governed by the provisions of Federal law including, but not limited to, application review, the sixty (60) day shot clock, tolling and the deemed granted remedy. Eligible Facilities Requests are subject to administrative review by the Town.
- B. <u>Small Wireless Facilities Collocation on Existing Structures</u>. This subsection implements the sixty (60) day shot clock which is contained in the FCC's Declaratory Ruling and Third Report and Order adopted September 26, 2018, regarding the collocation of small wireless facilities on existing structures. These requests shall be governed by the provisions of Federal law including, but not limited to, application review and incompleteness, resetting of the sixty (60) day shot clock once upon timely notice of incompleteness, tolling and available remedies.
- C. <u>Small Wireless Facilities Construction (New Structures)</u>. This subsection implements the ninety (90) day shot clock which is contained in the FCC's Declaratory Ruling and Third Report and Order adopted September 26, 2018, regarding the construction of small wireless facilities on a new structure. These requests shall be governed by the provisions of Federal law including, but not limited to, application review and incompleteness, resetting of the ninety (90) day shot clock once upon timely notice of incompleteness, tolling and available remedies.
- D. <u>Collocation for Other Than Small Wireless Facilities</u>. This subsection implements, in part, 47 U.S.C. Section 332(c)(7) of the Federal Communications Act of 1934, as amended, as interpreted by the FCC regarding collocation applications for other than small wireless facilities including, but not limited to, application review, the ninety (90) day shot clock and tolling.
- E. New Sites or Towers. This subsection implements, in part, 47 U.S.C. Section 332(c)(7) of the Federal Communications Act of 1934, as amended, as interpreted by the FCC regarding new site or tower applications including, but not limited to, application review, the one hundred fifty (150) day shot clock and tolling.

Section 2.14 Other Review and Approvals

All other proposed installations within the Public ROW involving wireless communication facilities (for example, where the facilities do not qualify as small wireless facilities), shall require the issuance of a conditional use permit or special use permit under the Town Code.

Section 2.15 Violation of this Chapter

Violation of any of the provisions of this Chapter shall be punishable with a fine of up to \$_____ for each violation. Each day that a violation occurs or is allowed to exist by the applicant or provider constitutes a separate offense.

BUREAU OF RECLAMATION

Great Plains Region Wyoming Area Office P.O. Box 1630 Mills, WY 82644-1630

WY-4303 2.2.4.23

DEC 0 7 2018

Mr. Bruce Martin Public Utilities Manager Board of Public Utilities 200 North David Casper, WY 82601

Subject: Water Available Under Contract No. 2-07-70-W0534

Dear Mr. Martin:

The United States, the Casper-Alcova Irrigation District, and the City of Casper entered into Contract No. 2-07-70-W0534 on April 15, 1982. This contract allows for a maximum of 7,000 acre-feet (AF) of water per year to be available to the City of Casper from the Kendrick Project water supply. Pursuant to Section 7-C of Contract 2-07-70-W0534, this letter is to notify you that a water supply of 7,000 AF is anticipated to be available to the City of Casper for water year 2019 under the terms and conditions of the contract.

If you have any questions regarding the water available for the City of Casper under this contract, please contact Cathy Johnston at 307-261-5649.

Sincerely,

Brad Cannon
